I am feeling much better this morning and
I fear to go out in the rain as there are so
many persons sick. If the children will give
you so much trouble to get ready for mercy
take care then for I fear you will overtax
your self. The draughts are warm enough
& I am as comfortable as any one in my clothes.
So don't worry any more. As you can not have
any more real cold weather. I hope you did
not catch cold when you had to go to bed is gut warm
