

May have a good wheat crop this year and  
it may about finish up the notes -  
I hope Dr. B. will be able to give a sketch  
of the rheumatism - but if he has a severe  
it will wind him up - for the Spring I am  
I do think we have the trick of it -

I hope Will won't get the idea of leaving  
just as we get busy - he may make  
us a valuable hand - I hope so -

I guess Frank is an eye man all the  
time - make your letters short if you  
are leaving and farming - I  
will send you the money Sunday if  
you want it - How long do you expect  
to remain in Phila - I will come to you  
May 5<sup>th</sup> I am just wild to see you -
