

MSA SC 5807-21-

to you - when the Fishers
wished you to postpone your
visit - and it will bring
me home Saturday which
will also be a relief to me.
You are surely welcome
to my catchee - it will
give me great pleasure to
give it to you and to take
your old one - which
would be enough for me -
The Mr & Harland are hard
characters and we don't
want them to come on the
place any more - I would
keep Crains better - and
when you show him what
it measured will pay you
the balance - don't worry
over the farming for I know
it will come round all right.
It is a perfect chance that
Daw & Price as old as they
are should neglect Farming
