I have known her intimately ever since Nelson left her and know she has not been divorced from him and has not married any other man.

I knew Nelson a good many years before he married Ellen. He was a young man and a waiter at the home of Dr. Swartz Corner of Calhoun and Fayette Streets.

I never heard of him being married before his marriage to Ellen Turner.

It has come to me now that it was Mr. Hubbard who married them and he was pastor of Allen's Chapel at the time.

I am not interested in this claim. You have read this deposition to me and it is correct.
