

anything but pretty healthy.
I have been out of work since
July 5th and have a family of
seven children and wife. I have
been ill for two months and
now that I am up my wife
is sick in bed under the doctor.
As I said, she died very unexpectedly
and I have always looked after her
and taken care of her. She died on
the morning of the 4th, just before
the mail man came. Unfortunately,
she did not own any property and
left nothing in the way of cash
to pay for her burial, or funeral
expense, not mentioning other
sundry expenses incurred by her.
