

TRACT NO. 3-A.

Mary E. McCormick et.al., Owners.

This tract contains 45.25 acres of land, practically all of which is tillable. It is improved with a substantial dwelling containing 14 rooms and basement, and is heated by stoves, built partly of stone and partly of frame. The out-buildings are shown on the accompanying photographs.

The property is owned by Mary E. McCormick, Marguerite McCormick and Mrs. Addie Tipton, (nee McCormick.)

This place has an artesian well, the water of which the owners claim has medicinal properties.

The owners claim to have a deposit of marble, a block of which, they claim, was used in building Washington's Monument in Washington, D.C. A photograph of this marble quarry accompanies this report.. There is no road to this quarry and the approach is difficult.

Owner's Valuation-----	\$
Commission's Valuation-----	\$ 10,000.00.
Probable Cost-----	\$ 15,000.00,
