

TRACT NO. 17.

Mrs. Sevena Smith, Owner.

This farm contains about 323 acres of land. It is divided by the concrete road leading to Bridge No. 2. The area required for the 240-foot level is 96.4 acres, and very badly cuts the part of the farm lying south of the new road and a small portion of the land lying north of this road, bringing the line of the City's level within 200 yards of the dwelling house and 100 yards from the dairy, and some of the small out-buildings on the east and west side of the branch running through this portion of the property. Practically all the land needed for the 240-foot level is arable.

For the 270-foot level, about 200 acres of this entire tract will be needed.
