the various services on which the North
 American Squadron may at a very early
 period be employed. - If necessary I should
 have the means at hand for accomplishing
 the objects in view. I therefore submit to
 your Lordship's consideration the propriety
 of the following articles being immediately
 sent out, in order that no time may be lost
 in striking a blow where it can be done with
 apparent advantage -

1. A quantity of Ammunition to be made up in packages from 20 to 50 pounds each, to be conveyed by water and delivered at such places as may be directed.
