

For Howard
at New York
with the intention
of the people of the
New England States

has induced me to order Arnold at
once to proceed to ~~you~~ you, as it is
evident whilst making such extensive
arrangements for operations in this
neighborhood, you will require much
local information & I know nobody
more equal to give it you than
Froubidge, who has had so long a spell
here and has so often visited the different
points to which your first operations
will naturally be directed. I have
also endeavored to make him completely
master of my ideas on the several subjects
to which your letters referred, and his
seeing you quickly is therefore, in my
opinion,

W. Cochrane
