You are hereby required and directed to continue with the Ships named in the margin to carry into Execution the Orders of the Commander in Chief for enforcing the Blockade of all the Ports and Anchoring places within Long Island Sound, and destroying entirely all Trade and commerce therewith watching the Enemy's Ships of War in New London and generally cutting off his Ships and annoying his trade as far as may be within your power on that part of his coast between Montuck Point and Mautucket which is not declared in a State of Blockade, but you will not consider the Ships of Sandy Hook as being any longer under your immediate Directions.
