

immediately and shall take her with
me, the Gang mede being in want of
some repairs I shall leave here to make
them good and convoy being required
for two Transports which arrived with
the Amphibion bringing detachments
for the two Regiments now at Castine
- either the Gang mede or Cofoack when
these Transports are ready will be
directed to see them safe to their destination
and afterwards to join me, and the
others will remain to guard these Islands
with Wolverine and Surprize.

Most unusually bad Weather even
for this place at this Season of the year
has rendered abortive all my Endeavors
to get the Albion sooner to Sea, it has
also kept here the Armide, and has
equally retarded the progress of the
different Vessels here refitting, and
I fear from what I learn that the
Weather has been equally disastrous
on the neighboring Coast of America;
and indeed in all these Seas, and that
we may therefore expect to hear of our
Ships having suffered from it more
or less
