

Navy Yard Wash: 26th Jan^y: 1813

Sir

I have received a requisition for three
hedge Anchors, wanted for the frigate Adams, of
700 - 600 & 500 lb. with iron stocks.

Not being able to work our forge hammer,
on account of the Steam Engine boiler being
under repair - we cannot make them timely,
in this yard, without delaying the immediate
calls for materials wanted to complete her
repairs & outfit - I therefore respectfully
submit for your approbation, to have them
ordered from Baltimore

I have the honor to be
very respectfully

Sir Yr Obed^t Serv^t

W. S. Ingalls

Hon^{ble} W. Jones.
