

where they can be conveyed by
to Norfolk — Having found
freight to get them this far I
thought it to the interest of the
Government to continue them
by this route rather than take
back — I am therefore making
arrangement & shall leave the
Provision with the Powder & the
men tomorrow — I take them
because the two or three weeks of
they have to cross is but short &
will be able to move it —

I shall make arrangement
with Mr. Park, of this place, to
the expense attending the trans-
-tation, as I find he is the Contract
Agent for the Army & is now to
forward Park & Co from Norfolk
this place by the same route —
The Hon^{ble} with great respect
William Jones —
