I should Mr Nelsons bill appropriating
\$60000 to encourage the destruction of
enemies vessels pass, and that sum
or part of it be used for proper preparations
and an organized system of submarine
attack, there is every reason to hope
for such success as will give you
real pleasure, and animate
the nation, an individual person
his private purse cannot carry
out improvements in war with
effect here I hope will give more
with the influence of your friend
to have the Bill passed
Respectfully your man! Chas^r R Fulton
