

between Sineu & Cape Palmas - their relative
size & probable population - about what
a place would be most favourable
for their proposed work &c? I was once
familiar with these things, but may changes
have taken place in the condition of
these towns, & your more recent acquat-
ance with them will enable you to
furnish much valuable information.

I may be in Baltimore about the
first of May, but the information
for which I write is needed in con-
nection with some ^{of} our present measures.

Please write as plain a hand
as possible. I am advancing in years
& cannot decipher all kinds of writing.

Yours truly & sincerely

J Leighton Wilson
