

I hope soon to see this matter adjusted
and a Treaty made and mails carried
direct to the States but I must do
as I best can at present - you will
please attend to this matter and send
forward your Bill.

I have lost my wife since I last
wrote to you she died of effects of her
sickness on Ship Board if that doctor
had of known as much as a Jackap she
would have been alive now he did not
attend to his business and let her suffer
three days in Child birth and he got scared
and done what he should not have done
and to mend the matter gave her a dose
of Calomel in the meantime had it not
been for Bishop Payne & Lady he would
have killed her outright - Then she lived
13 days after landing and was able to
walk apart of the time the fever came on and
inflammation of the Womb carried her off
Doct Fletcher done all he could to
save her but could not - had he
of known all about her case he might
have saved her but Quackens did not -
