Dr. James Hall
Dear Sir

Liberia College must have new shingles. We ordered them to be procured there, but they have not succeed in getting enough, and we must send out enough to cover one side. It is desirable that they should go by the Golconda, and it is troublesome and expensive to send them from here to Baltimore.

Can you buy them at Baltimore and put them on board? and what will you charge for freight?

You know what shingles are wanted. Flint, lumber-merchant, says, get cypress shingles. Roberts says they are good, if free from sap, but the sap rots quickly.
