

Balto. May 31/60 -

Dear Madam

I have not time now to go into details about outfit of the Navy & presume as you must be some days in Charters - I write to say that the Rose stands a good Western Ship of 990 odd tons can be had for 12,000. The Cashoffer shows yet kind of any thing. I do not know of her accommodations, but if you cannot do better I will take her. For her own & consequently value you in some degree of your responsibility. Another thing about the S. S. ship, it is to be called Peking. Not put yourself in a way to have your rights but consult advice of the quantity & character of the goods. This being not only a good business but in some degree a help out to one. a slight diminution of speculation would not be considerable - I thought you about the R. S.
