ROCK HALL NOTES.

State President, Wm. T. Childs, State Vice Pres., H. T. Griffith, State Sect'y., Wm. J. Heaps, State Master of Forms, Rev. W. L. Seabrook; State Treasurer, Wm. J. Carter, assisted by State Trustee, Wm. G. Davis, delegate Chas. W. Leef, of No. 32 Baltimore, P. S. P. John McC. Rochester, Church Hill, and Delegate C. S. Walls, of No. 83. Centreville, instituted Camp No. 90, P. O. S. of A., in Piney Neck on Saturday night last. 23 of Piney Neck's good citizens were initiated into the order. Seven others were on the list of applicants but were unable to be present. A large delegation from No. 37 of Rock Hall witnessed the ceremonies. This new camp starts off with the brightest prospects and is destined to give the Rock Hall Camp a close rub for future honors. The officers of the new camp are: Past President, Lloyd Adley; Prest., J. I. Elburn; Vice Prest., C. T. Crouch; Master of Forms, Edward Coleman; Rec. Sec., Michael Adley; Fin. Sect'y., R. T. Crouch; Treas., Jesse Bryden; conductor, Alpheus Wilson; inspector, John Baker; guard, Fred Staats; Chaplain, Columbus Beck; Right Sentinel, J. O. Elburn; Left Sentinel, Avery Ashley; Trustees, J. A. Collison, Thos. Price and Capt. Jas. Dolen. These officers were installed by S. P. Wm. T. Childs, after which a talk fest was happily indulged in until midnight. Messrs. W. G. Davis and J. R. Diehl were the promoters of this new Camp.

The 7th Day Adventist of this place will conduct re-opening exercises today and tomorrow. Prominent elders from various sections of the State will be present and preach.

The Schoenewolf phobia is still raging among preachers and churchmen. No wonder a great majority of the substantial men of a community hold aloof from church connection.

A 9-year-old daughter of Capt. and Mrs. C. W. Crouch met with a serious accident a few days ago. While playing with other children she became entangled in the wheel of a passing team which caused the breaking of her leg above the knee. Dr. Selby rendered surgical aid and the little girl is doing as well as could be expected.

Wheat in this section has been looking remarkably bad, but is now beginning to spruce up somewhat.

Oystermen here are really disgusted with so much blustry weather and when they do get out on the bars oysters are so scarce that they find very little profit from their work, so it is a matter of don't care how soon the season closes. But very few oystermen look with favor on catching seed oysters for the oyster culturists after the close of the regular season.

Fruit growers in this section have been fearful of the safety of the fruit crops owing to big frosts but fruit seems to be O. K. so far.

Heavy winds have played havoc with our fishermen's fishing rigs this week. Many of them have lost heavily.

Through a report from Professor B. G. Wilkinson, president of the Columbia Union Conference of Seventh Day Adventists to Elder, R. T. Baer, of the local body, it has been learned that substantial gains were made during 1912 in the Union which comprises the state conferences of Ohio, Pennsylvania, New Jersey, Maryland, Virginia, West Virginia, Delaware and the District of Columbia. Over $120,000 was received in tithe, the method employed by Adventists for the support of the evangelical work in this country and mission fields, during 1912, a gain of more than $17,000 over the previous year. Of this amount the Chesapeake Conference, which includes the local church, gave $11,663.60, a gain of $2,841.60 over 1911.

GRANGE NOTES.

Fairlee Grange held a meeting of practical value on Wednesday evening. The situation of the tomato question was fully discussed and decided to still hold to the original agreement, not to plant for less than $9 per ton.

The committee on Course of entertainments held during the winter was quite a success, each of the four being of a high class and artists in the different lines. After paying all expenses they have a balance of $25 which the committee recommend to be used for buying a "Loving Cup" for a prize in a corn contest and lectures upon subjects of the home and farm.

A committee of ladies was appointed to make plans for a contest of the ladies of the Grange.

A special meeting will be held on the 16th at which time the Lime question will be discussed by Mr. J. T. Anthony and others.

The Still Pond Grange today will give the 3rd and 4th degree to a big class at 2 P. M., initiation at 3 P. M., supper at 5.30 and at 7 o'olock an interesting program will be presented. The "Grange Review" will be launched by the Grange, Mrs. Evalyn Harris, editor.

DEATHS.

Mr. John W. Luike died at the home of his daughter Mrs. Albert H. Supplee at Betterton on Monday afternoon of general dibility aged 80 years and 6 months. Funeral services were held from his late home on Friday morning at ten o'clock the Rev. Mr. Shaffer of Shrewsbury officiating. Undertaker W. H. Kruson in charge. Interment was in Still Pond Cemetery.

MISS HARRIETT M. SUDLER.

Miss Harriett Malvina Sudler died Wednesday morning at the home of her nephew, Emory Sudler, 2100 St. Paul St., Baltimore.

She was born at Radcliffe Cross, Kent county, Md., in 1837, and was the daughter of Emory and Elizabeth Worrell Sudler, who was a daughter of Judge Thomas Worrell.

Miss Sudler became associated with the Church Home and Infirmary in 1876 in a subordinate capacity, but in a few years became its matron. Under her care and management that institution grew to its present size and importance. She retired from the home in 1906.

She is survived by a sister, Mrs. Anna Gordon Valk, of Washington, D. C., her brother, John Emory Sudler, having died in 1911.

FORESTRY TALK.

Last week our State Superintendent of Forestry and the assistant superintendent paid us a visit, and gave us a very interesting talk of which I will try to give a brief sketch.

The question concerning forestry is quite important. Our trees are continually being destroyed and not being replaced. If this keeps up the forests will soon be exhausted. We cannot do without wood. True it is that many things are used in place of wood, but the time will never come when we can begin to do without this necessary material.

Look around us, see the many things that are made of wood. Is this not a good proof of its usefulness? Another thing—our forests hinder floods. Were it not for the tangled mass of woodland debris, which absorbs the surplus amount of water, much of our country would become a flood plain. By forming a sort of shield, forests keep great tornadoes from doing more damage than they do. Thus I have mentioned a few of the many uses of forests.

Forest fires are becoming sources of much distress. These fires are caused by sparks that fly from trains as they pass through. Occasionally one will hear of a fire being started by a person, but only a very few are heartless enough to do such a dreadful thing.

Sometimes forests will burn for days and days, miles and miles, without anyone seeing the fire. These fires destroy not only the grown trees but the small seedlings and sprouts which are hidden under the dense moulds, as well.

When fire kills part of a tree there are always many fungi waiting for a chance to enter the exposed part. When they once get into a tree, it is quite difficult to dispose of them, as no remedy for the disease caused by them has been found as yet.

Many other diseases are befalling our trees, such as the chestnut blight, etc. With all these diseases and fires, the forests will soon be exhausted unless something is done.

Out west where there are frequent fires wardens are stationed at different points. At certain hours of the day these men take inspection, that is they visit some high place where they can see for quite a distance. If they see a fire they hurry to some near telephone and tell the other wardens. Then they all rush to the place where they suppose the fire to be. The men are so well acquainted with the country that they can usually tell the exact place where the fire is.

All persons who can do so, are expected to help extinguish a fire; if they do not, they can be fined ten dollars. Thus we see that people are beginning to do something toward the preservation of forests.
