American Fence

Is the heaviest fence made today. It is 60 to 80 lbs. heavier to the hundred rods than other fences, because we use heavier wires which hold more galvanizing which makes longer life.

The upright stays on some field fences are 14 in. apart while on American they are only 12 in.

The hinge joint makes it easy to take down and move American from one place to another.

The tension curve allows for all expansion and contraction.

All our stock of fencing is kept in our large warehouse where it is protected from the weather, and when we send out a roll of fence it is just as clean and bright as when it first came from the machine that made it. Isn't it better to buy fence under these conditions than it is to buy fence that has been piled out in the weather for 3 months to 2 or 3 years?

We have all sizes from 20 in. high to 5 ft.

American Poultry Fence is the acme of perfection in poultry tight fences.

Let us figure on your needs.

Yours to serve,

Davis & Satterfield

Ordered Oysters And Coffee.—Thomas H. Skipper, of Chestertown who was mentioned in the Sun in connection with the arrest of Patrick Kirwan, of West Fayette street, for violating the law and selling intoxicating liquors on Sunday, has stated to his friends that he entered Kirwan's Hotel on the afternoon in question to take a hurried meal, without ordering anything at all to drink. "I wished to get something to eat in a hurry," said Mr. Skipper, "and passing by Kirwan's restaurant, entered it for that purpose. I did not want to have anything to drink whatever, and did not purchase or ask for anything of the sort to eat. I merely ordered some oysters and coffee, and the man in the place had taken my order and was preparing it when the officer entered the place. I had nothing whatever to drink before me, made no attempt to get anything to drink, as I did not wish it. I was waiting for the oysters and coffee which I had ordered when the policeman made the arrest and held me as a witness." Mr. Skipper is well known in Kent and Queen Anne's counties, as well as in Baltimore, in all of which places he has many friends, by whom he is greatly respected.

A New Club.—Chestertown has recen t ly formed a club, to be known as the Chestertown Federated Club. It will be composed of sections with a Chairman for each section, modeled after the the State Federation. Mrs. Wilbur W. Hubbard was elected President, Mrs. P. M. Brooks First Vice President, Mrs. Herbert E. Perkins, Second Vice Presi. dent Mrs. J. D. Bacchus, Recording Secretary, Mss. Louise Utie, Corresponding Secretary, Miss Blanche Constable Treasuaer.

The following are some of the questions they will attempt to solve.

The Servant Problem, Mrs Brooks being made Chairman of this section.

Home Economics of which Mrs. Marjorie P. Finely was made Chairman, and under this section they wish specially to look into the Milk Problem, as the ladies have been informed that the law concerning diseased cattle are much more lax in Maryland than the laws of Pennsylvania and Virginia and that Maryland has been made the dumping ground for Tubercula Cattle.

The ladies also wish to have a section for the Prevention of Cruelty to Animals also to inforce the Ten Hour Law, Child Labor Law and the proper care and prevention of Tuberculosis.

A meeting was held at the home of Mrs. W. W. Hubbard on Monday evening Mrs. Corkran of Balto. addressing the meeting. Mrs Corkran's personality and enthuasism over the good work that women are doing so impressed the ladies that a great many new members were added to the Club, making its number about Sixty-two in all.

After Mrs Corkran's address refreshments were served, Mrs. Corkran was a Miss Lloyd and is a cousin to Mrs. Clark of Washington College.

THE Kent and Queen Anne's Trotting Association will enclose their grounds at Chestertown along the public road with a high board fence. Trainer Mallalieu is expected here next week with a string of race horses. The track is in fine shape after the heavy rains.
