"Don't Worry About That!"

When in need of legal advice, the quickest way to relieve anxiety is to call up your lawyer on the telephone.

The lawyer finds the telephone invaluable in consulting with clients, arranging settlements, and getting valuable information.

The farmer who has a Bell Telephone is not limited to a local practitioner when seeking legal advice. He can quickly communicate with the lawyer he wants, whether in the nearby town, the far-away city, or an adjoining state.

Every Bell Telephone is a Long Distance Station

WOMAN'S ILLS DISAPPEARED

Like Magic after taking Lydia E. Pinkham's Vegetable Compound.

North Bangor, N. Y. — "As I have used Lydia E. Pinkham's Vegetable Compound with great benefit I feel it my duty to write and tell you about it. I was ailing from female weakness and had headache and backache nearly all the time. I was later every month than I should have been and so sick that I had to go to bed.

"Lydia E. Pinkham's Vegetable Compound has made me well and these troubles have disappeared like magic. I have recommended the Compound to many women who have used it successfully."—Mrs. JAMES J. STACY, R.F.D. No. 3, North Bangor, N. Y.

Another Made Well.

Ann Arbor, Mich.—"Lydia E. Pinkham's Vegetable Compound has done wonders for me. For years I suffered terribly with hemorrhages and had pains so intense that sometimes I would faint away. I had female weakness so bad that I had to doctor all the time and never found relief until I took your remedies to please my husband. I recommend your wonderful medicine to all sufferers as I think it is a blessing for all women."—Mrs. L. E. WYCKOFF, 112 S. Ashley St., Ann Arbor, Mich.

There need be no doubt about the ability of this grand old remedy, made from the roots and herbs of our fields, to remedy woman's diseases. We possess volumes of proof of this fact, enough to convince the most skeptical. Why don't you try it?

GALENA ITEMS.

The Odd Fellows of Galena Lodge No. 74 after their meeting had a little social affair. Ice cream and cake were served; quite a number were present.

The Ladies Aid met at the home of Mrs. J. W. Latimer. After the business meeting refreshments were served.

Our new minister Mr. C. W. Moore filled the pulpit of Olivet M. E. Church and preached two able sermons on Sunday last.

Miss Carrie Dempsey is visiting Rev. and Mrs. O. H. Connelly, of Christiana, Del.

Mrs. L. R Vansant and her daughter Miss Anna, spent part of last week in Wilmington, Del.

Mr. C. O. Burns, of New York, is visiting down at his farm near town.

Several of our gentlemen around have their gardens planted.

Rev C. W. Moore and family arrived Wednesday evening. A supper was served by the Ladies Aid Society.

A GOLD MEDAL AWARDED.

A gold medal to the school boy or girl between the ages of 10 and 15 who writes the best composition, not to exceed 800 words, on the repair and maintenance of earth roads, is to be awarded by Logan Waller Page, Director, Office of Public Roads. All compositions must be submitted to Mr. Page before May 15 1913, and the medal will be awarded as soon thereafter as the composition can be graded. The composition may be based on knowledge gained from books or other sources, but no quotations shall be made.

After many years' experience in dealing with the public road situation of the country, it is Mr. Page's belief the ignorance on the subject of repair and maintenance of roods is as much the cause of their bad condition as any other one factor. It is expected that the competition will bring about a better understanding of the subject of repair and maintenance in the rural districts.

Many children living in the rural districts have experienced the disadvantage of roads made impassable through a lack of proper maintenance and it is expected that their interest in the competition will stimulate greater interest the bad roads have prevented many children from obtaining a proper education have even prevented doctors from reaching the side of rural patients in time to save their lives.

Any child between the ages mentioned, attending a country school, may compete. Only one side of the paper must be written on; each page should be numbered; the name, age, and address of the writer, and the name and location of the school which he or she is attending must be plainly written at the top of the first page. The announcement of the competition has been sent to the superintendents of schools in the rural districts. No further information can be obtained from the Office of Public Roads. This annoucement should be plain to everyone, and all children will thus start on a basis of equality.

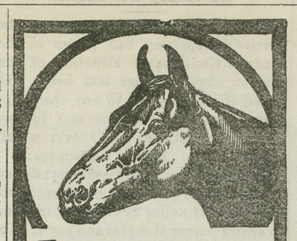

IN MEMORIAM.

In loving remembrance of WILLIAM H. WELLS, who died April 13, 1912.

Although he is absent from us
And one weary year has fled
Since we stood by his bed in sorrow
And knew that our dear one was dead,
But one thought comes to us in our sadness,
He is free from all sickness and pain,
And we trust when our journey in ended
We will meet our loved one again.
WIFE AND CHILDREN.

You are gone but not forgotten.
Nor ever will you be,
As long as life and memory last
I will always think of you.
WIFE.

Lameness

Sloan's Liniment is a quick and reliable remedy for lameness in horses and other farm animals.

"Sloan's Liniment surpasses anything on earth for lameness in horses and other horse ailments. I would not sleep without it in my stable."—MARTIN DOYLE, 432 West 19th St., New York City.

Good for Swelling and Abscess.

MR. H. M. GIBBS, of Lawrence, Kan., R.F.D., No. 3, writes:—"I had a mare with an abscess on her neck and one 50c. bottle of Sloan's Liniment entirely cured her. I keep it all the time for galls and small swellings and for everything about the stock.".

SLOAN'S LINIMENT

is a quick and safe remedy for hog cholera.

Governor of Georgia uses Sloan's Liniment for Hog Cholera.

"I heard Gov. Brown (who is quite a farmer) say that he had never lost a hog from cholera and that his remedy always was a tablespoonful of Sloan's Liniment in a gallon of slops, decreasing the dose as the animal improved. Last month Gov. Brown and myself were at the Agricultural College building and in the discussion of the ravages of the disease, Gov. Brown gave the remedy named as unfailing."

Areas for Seed Oysters.—The Shellfish Commission has issued a circular defining the areas of natural oyster beds from which seed oysters may be taken between April 15 and May 16 under an act of the last legislature.

Acting under this authority, the commissioners have set apart the area in Chesapeake Bay lying above a line drawn from Lower Island Point, passing south of Spry Island, to Mitchell's Bluff Triangulatian Station just North of Tolchester, and also the area in Broad Neck Talbot county lying above a line drawn from the Southerly end of Royston Island to the southerly end of Nelson Island.

In addition to this area, the Potomac River, above a straight line drawn from the north point at the mouth of Upper Machodoc Creek, King Georges county Va., to Lower Cedar Point, Charles Co, Md., is open for the taking of oysters from January 1 to May, 1 under recent concurrent legislation of Maryland and Virginia.

TO BE BROUGHT UP-TO-DATE

In response to repeated and urgent requests from Cecil countians, residing both at home and in distant states, I have decided to republish Johnston's History of Cecil county, Maryland; provided sufficient support and interest can be found manifested to insure the success of the project.

The intention is to supplement the Johnston Edition in order that it may include the history of the county up to the present time, and embrace other facts of local importance, pertaining to family records, development in its various field,—etcetera, with required illustrations in order that the great advantages and attractiveness of this favored section may be widely understood and appreciated.

In other words, to issue a publication in proper form and substantial binding, treating the past, present and future of Cecil county. A work of the highest character that will be of material benefit in every way.

The support of the citizens at large is therefore necessary, and all interested are requested to correspond with the undersigned immediately, as it is hoped to start the preparatory work without delay. The contents will be passed upon by an Editorial Board, consisting of prominent citizens, chosen because of their qualification for the task. Accordingly the work will be treated as a solemn trust, broad minded and fair, free from any individual mark or prejudice. The aim will be to render justice not favoritism.

The present Johnson's History is entirely out of print. Copies are in unusual demand, at high premium, the average sale price now being ten dollars. One Elktonian disposed of a copy at $20. The history was published by the late George Johnston, Esq., a newspaper writer and author, at Elkton, in 1881. The copyright was granted the same year in accordance with Congressional act, expiring in 1909. When the views of our citizens at large are obtained, and an estimate can be made of the support forthcoming, the Editorial Board, referred to above, will be named, consisting of members from different sections of the county.

All interested are earnestly requested to correspond with the undersigned at once stating their desire to become subscribers for the proposed edition, the price of which will be Five Dollars per copy, in one volume, cloth binding.

A leather bound Edition de Luxe will be issued in two volumes at Ten Dollars (including both volumes.)

Those having photographs of interest, views of watercourses and landscapes, historic buildings, and family sketches, are invited to lend a helping hand. The names and addresses of prominent Cecil countians now resident in other States would be appreciated.

In summarizing:—It is hoped every loyal Cecil Countian will take an interest in the making of a history that will be handed down to coming generations both as a pleasure and lasting benefit.

A special feature will be the family sketches with records of members in a complete index.

The book will be issued from the presses and bindery of a prominent publishing house in Philadelphia, and be standard in every particular—as to binding, quality of paper, type, and illustrations. It will be distributed by THE ADVANCE COMPANY, of Philadelphia and New York, in which I am interested.

The outlook is most auspicious and encouraging. Address

VICTOR TORBERT, Publisher,
Elkton, Maryland.

A well attended meeting of citizens interested in the proposed publication was held in the office of the School Commissioners Wednesday afternoon. Meetings will be held later in other towns of the county.

CHESTERTOWN, MD.,

Leading Head-to-Foot Outfitters for Men and Boys.

Your Soil Is Alive

TO all intents and purposes, soil is alive. It breathes, works, rests; it drinks, and, most important of all, it feeds. It responds to good or bad treatment. It pays its debts with interest many times compounded. Being alive, to work it must be fed. During the non-growing seasons certain chemical changes take place which make the fertility in the soil available for next season's crop. But this process adds no plant food to the soil. Unless plant food is added to soil on which crops are grown, in time it starves. There is one best way to feed your soil. Stable manure, which contains all the essentials of plant life, should be spread evenly and in the proper quantity with an

I H C Manure Spreader

I H C manure spreaders are made in all styles and sizes. There are low machines which are not too low, but can be used in mud and deep snow, or in sloppy barnyards. They are made with either endless or reverse aprons. Frames are made of steel, braced and trussed like a steel bridge. Sizes run from small, narrow machines to machines of large capacity. The rear axle is placed well under the box, where it carries over 70 per cent of the load, insuring plenty of tractive power. Beaters are of large diameter to prevent winding. The teeth are square and chisel-pointed. The apron drive controls the load, insuring even spreading whether the machine is working up or down hill, or on the level. I H C spreaders have a rear axle differential, enabling them to spread evenly when turning corners.

I H C local dealers handling these machines will show you all their good points. Get literature and full information from them, or write
