The New Year

Will it bring you Prosperity and Good Luck or Poverty and Adversity?

We Know This:

That with those who keep a Bank Account prosperity has a better chance.

Why not start a Bank Account with the New Year? Be able, when the year is old, to say, with the prosperous ones: "Financially, the past year has been the best year of my life."

Don't be placed with the "quitter," who complains about "hard times and heavy taxes."

The Kent County Savings Bank

has administered to the wants of its customers through good times and hard times, doing its best always to render substantial and efficient service.

You are invited to associate yourself with us as a depositor, and grow with us.

New Year Greeting

Now that New Year's is nearly on us and our thoughts are for our loved ones, we take this opportunity to call your attention to the SAVINGS DEPARTMENTS of the

Chestertown and Galena Banks

where by making a deposit of one dollar or more we give you a Pass Book, made out in the name of the one to whom you wish to give it, and on New Years morning you can present it.

A most appropriate gift.

Young people who learn to save in youth form a habit that will prove beneficial through life, by encouraging them to add to it, and lay the foundation for a substantial account later on.

Our facilities are at your command.

STUDENT DROWNED

George S. Currie, of Washington College, Receives Skates and Breaks Through A Weak Place On Chester River.

With that devotion and thought only a parent can bestow, Mr. and Mrs. J. M. Currie, of Reistertown, sent by parcel post to their son at Washington College a package containing a pair of skates and other things. The son, George, on Wednesday afternoon stopped at the postoffice, opened the package and took out the skates and proceeded to the river to enjoy the sport.

Quite a crowd of young people were skating in the dock fronting on Water street between the bridge and Senator W. W. Beck's home. Some few ventured across the river, among the number being George S. Currie and Will Wallis, two students at Washington College. Young Currie was rather near sighted and accidentally skated close to an air hole about twenty yards on the Queen Anne's side of the draw and broke through. His companion tried to warn him of the danger but spoke too late. Currie clung to the ice with his cries for help rent the air, but all in vain and the the young student dissapeared beneath the ice.

A number of young men under Mr. Robert Huey's leadership endeavored to find the body but not until Sheriff Brown, an expert with oyster tongs, assisted by Mr. Clarence Usilton, was the body recovered. It was then about 6 o'clock and life was extent. Dr. J. W. Cain, president of the college, authorized Undertaker Dodd to take charge of the remains. The flag at the college was placed at half mast and the session of the school adjourned over Thursday.

The body was carried to the home of the parents Thursday afternoon accompanied by Dr. Cain and room mate Gray L. Doub, class mate W. G. Mann and Undertaker Dodd. The whole student body accompanied the remains to the train and made a most impressive scene. The pall bearers were the following class mates: C. H. Lickle, E. S. Graves, J. W. Davis, A. H. White, T. F. Biddle, J. H. Coppage.

The deceased was in his junior year at the college. He was small of statute and about 18 years of age. He was an attendant at Emmanuel Church, a good student and popular. His mother was prostrated at the news. His father is a prominent merchant nt Reistertown. The funeral took place yesterday at 11 a. m. from all Saints P. E. Church, at Reistertown.

ZERO WEATHER.

Winter with a 40 mile gale arrived here Monday and on Tuesday morning the mercury registered 13° Wednesday morning the same thermometer recorded 3°, while at Betterton and other points zero was reached.

The B. S. Ford reached Chestertown Tuesday evening but had to break three inch ice from Rolph's wharf to Chestertown. After discharging her freight the steamer about 8 p. m. went down to Quaker Neck wharf leaving there at 9 a. m. and arrived in Baltimore about usual time.

The weather moderated Wednesday night and the Ford made her usual trip Thursday.

Farmers in Kent filled their ice houses with clean ice Wednesday and Thursday from Price's pond, Paper Mill pond Brice's pond and elsewhere.

Sale of Fairlee Property.—Miss Carrie Fetzer and brother, of Washington, D. C., have sold to A. M. Kendall, Samuel W. Corkwell, their Attorney, the property on the "Hill," across the road from the Fairlee School building.

Years back, it was owned by the late James C. Dowling, who built the dwelling and occupied it for some years, afterwards removing to Baltimore. The property will be improved to some extent in the Spring.

THE financial statment of the Kent & Queen Anne's Driving Association appears in this issue. It is a most interesting and flattering account of the condition of this new company. The officials have managed well and the coming year promises to be even more successful.

Bolgiano's "Greater Baltimore" Tomato

Better Than Stone Ever Was

Just doubles the yield of many of the best Canning Tomatoes you have ever grown. Brilliant Red Color—One of the Handsomest Tomatoes you have ever seen for Canning Purposes. Ripens Evenly To The Stem—Is Free From Ridges, Cracks and Blight.

Tomato Investigations at Purdue University Agricultural Experiment Station, Lafayette, Indiana.

Extracts from Bulletin No. 165, Vol. XVI, April, 1913.

"The average calculated yields for three years of eleven varieties tested shows 'Greater Baltimore' ranking First with a yield of 16.25 tons per acre against Stone 12.38 tons per acre.

"Considering Yield and Quality the eleven varieties tested will rank as follows as a field crop for canning:—First 'Greater Baltimore.'

"Picking season from July 25th to October 1st, the 'Greater Baltimore' yielded nearly 22 Tons Per Acre.

"The 'Greater Baltimore,' which has been gaining in popularity with the Canning Trade during the past two years, begins bearing 12 to 16 days earlier than the Stone, when both are sown and handled in a similar manner throughout the season.

"It will also be seen that 'Greater Baltimore' is as early a bearer as Chalk's Early Jewel, which is generally considered an early sort.

"It is largely the Earliness and the Uniformity with which the plants bear a Large Number of Large Smooth Fruit throughout the ripening season that makes the 'Greater Baltimore' superior to the Stone, which has been the standard canning variety for many years.

"The average date of first ripening for the 'Greater Baltimore' was 120 days from the sowing of the seed in the hot beds and 65 days from the time the young plants were set in the field."

Ever since originating this now famous Tomato, we have year after year by carefully eleminating and selecting—built up what has been proven by Agricultural Experiment Stations to be the Best Main Crop and Canning Tomato In The World. Don't be mis-lead-Get Bolgiano's True Originator's Stock of "Greater Baltimore" Tomato.
