The New Year

Will it bring you Prosperity and Good Luck or Poverty and Adversity?

We Know This:

That with those who keep a Bank Account prosperity has a better chance.

Why not start a Bank Account with the New Year? Be able, when the year is old, to say, with the prosperous ones: "Financially, the past year has been the best year of my life."

Don't be placed with the "quitter," who complains about "hard times and heavy taxes."

The Kent County Savings Bank

has administered to the wants of its customers through good times and hard times, doing its best always to render substantial and efficient service.

You are invited to associate yourself with us as a depositor, and grow with us.

Bolgiano's "Greater Baltimore" Tomato

Better Than Stone Ever Was

Just doubles the yield of many of the best Canning Tomatoes you have ever grown. Brilliant Red Color—One of the Handsomest Tomatoes you have ever seen for Canning Purposes. Ripens Evenly To The Stem—Is Free From Ridges, Cracks and Blight.

Tomato Investigations at Purdue University Agricultural Experiment Station, Lafayette, Indiana.

Extracts from Bulletin No. 165, Vol. XVI, April, 1913.

"The average calculated yields for three years of eleven varieties tested shows 'Greater Baltimore' ranking First with a yield of 16.25 tons per acre against Stone 13.38 tons per acre.

"Considering Yield and Quality the eleven varieties tested will rank as follows as a field crop for canning:—First 'Greater Baltimore.'

"Picking season from July 25th to October 1st, the 'Greater Baltimore' yielded nearly 22 Tons Per Acre.

"The 'Greater Baltimore,' which has been gaining in popularity with the Canning Trade during the past two years, begins bearing 12 to 16 days earlier than the Stone, when both are sown and handled in a similar manner throughout the season.

"It will also be seen that 'Greater Baltimore' is as early a bearer as Chalk's Early Jewel, which is generally considered an early sort.

"It is largely the Earliness and the Uniformity with which the plants bear a Large Number of Large Smooth Fruit throughout the ripening season that makes the 'Greater Baltimore' superior to the Stone, which has been the standard canning variety for many years.

"The average date of first ripening for the 'Greater Baltimore' was 120 days from the sowing of the seed in the hot beds and 65 days from the time the young plants were set in the field."

Ever since originating this now famous Tomato, we have year after year by carefully eleminating and selecting—built up what has been proven by Agricultural Experiment Stations to be the Best Main Crop and Canning Tomato In The World. Don't be mis-lead—Get Bolgiano's True Originator's Stock of "Greater Baltimore" Tomato.

PLEASING ENTERTAINMENT

Little Tots Delight Two Big Audiences in Chestertown Lyceum—Benefit of Public Library.

Splendid audiences greeted the local plays in the Chestertown Lyceum this week under the auspices of that recherche body of ladies known as the Woman's Literary Club, and for the benefit of the Public Library. The affair was managed by Miss H. Elizabeth Latchum, B. E., and we can commend her to any desiring similar service. She is a decided success, but had the good fortune to pick excellent talent from Chestertown's young folks. She does something that no other "show" everdid—she pays her bills in advance!

Miss Louise Russell, daughter ef Mr. and Mrs Wm. F. Russell, presided at the piano with remarkable skill.

The soloists, Misses Helen Boyd and Louise Armstrong, made pleasing impressions by their beautiful renditions, while the little singers could not be surpassed. Margaret Rasin and Sara Graham each made decided "hits." Miss Ida Smith, as Gretchen, was simply splendid, while Messrs. Jos. N. Wheatley and Hanson Stavely brought forth rounds of laughter and applause by their acting. A summary of the cast is as follows:
