EIGHT TONS OF MILK!

One Cow in H. H. Pearson's Herd Gives 7,398 Quart Bottles of Milk in One Year—Enough to Feed an Orphan Asylum.

Last Fall Dr. G. A. Jarman, of Chestertown, was called to Mr. H. H. Pearson, Jr.'s Rich Neck Farms, of Claiborne, to treat a number of his big hogs for cholera and at other times to prescribe for his blooded cattle. A letter was received by Dr. Jarman last Friday congratulating him on his treatment as the hogs were doing finely and his cattle were in shape. Dr. Jarman speaks in the most exalted manner of this noted stock farm, and the NEWS is glad to give its readers some facts gleaned from first hands.

One of the highest records ever made by a dairy cow in the production of milk and butter fat was completed this month by France, a 5-year-old Guernsey, owned by Mr. Pearson.

The test was conducted under the supervision of the dairy extension division of the Maryland Agricultural Experiment Station. The record of France for the year ended March 1, 1914, together with the method of feeding and caring for her are indeed interesting.

In one year France produced 15,907 pounds of milk testing 4.41 per cent. butter fat and yielding 701.24 pounds of butter fat. Nearly eight tons of milk from one cow in one year—7,398 quart bottles in a row! Enough to feed a whole orphan asylum.

Produces 16 Times Her Own Weight.

In one year's time France, with a weight of 1,220 younds, has produced 16 times her own weight in food products. Furthermore, in working out the cost of her production, we must credit France with her calf, a splendid yearling, weighing 932 pounds one year after birth, and we must remember that the Guernsey is not noted as a superlatively large breed. The father of this calf, known as Lavanton, gives to his son, Noble of Rich Neck, an ancestry running back through Imp. Merry Anton to May Day to Loyal of the Huguenots, animals of the best blood to be found in Guernsey Isle, which, combined with that of the France family, to which this record cow, France Eighteenth Daughter, belongs, made possible such a promising youngster.

Neither must we neglect mention of the individual care which made such production possible. It was only by hand-raising the calf Noble on whole milk, together with constant and careful attention, that enabled Mr. Pearson's dairyman, Thomas Wallington, to bring out to the fullest detail the splendid qualities of the animal's good breeding. It was due also to Mr. Wallington's wise feeding and faithful work that France was enabled to make the record as she did, as is always the case where unusual records are made. No little importance should be attached to selecting the man who for the 365 days of such a test must milk and humor the sensitively built animal into her greatest productive efforts.

The previous record of France Eighteenth Daughter, now 5 years old, is worthy of study in showing the progress she has made under skillful management:

	Milk.	Butter Fat.	Equals Lbs.
With first calf at the age of 2½ to 3 years	9,835	440.9	514
With second calf at the age of 3½ to 4 years	13,554	625.3	717
With third calf at the age of 4½ to 5 years	15,907	701.2	818

France was continuously in milk from the birth of her first calf to that of her second and between her second and third calves she was "dry" only 23 days, so that with the completion of the present test she had been in milk 1,170 days out of 1,193 days since the birth of her first calf. Her production in 1913 to 1914 would have been considerably greater had she not been subjected to the discomforts of Mr. Pearson's barn being burned, since which time her quarters have not been as comfortable as formerly. Now that she has gained maturity she should by good management be gotten to increase her production at least another 2,000 pounds of milk a year, and that, too, without interfering with her normal production of calves.

Born May 14, 1908; calved March 1, 1912; served November 12, 1913.

1913.	Milk (lbs.)	Butter Fat. (P.C.)	Pounds.
March, 29 days	1,449.6	4.42	64.07
April, 30 days	1 772.0	4.04	71.59
May, 31 days	1,696.8	4.09	69.40

March, 2 days	.....	....	....
Total for year	15,907.0	4.41	701.24

To give some idea of the feed will state that in March 120 pounds of the following ration was given:

160 pounds Ajax flakes.
50 pounds cornmeal.
50 pounds linseed meal.
50 pounds wheat bran.
50 pounds cottonseed meal.

With addition:

64 pounds bran.
7 pounds cornmeal.
8 pounds beet pulp.
372 pounds roots.
542 pounds silage.
345 pounds alfalfa hay.

WALMSLEY—GOSMAN.

A quiet home wedding was solemnized at the home of Mr. and Mrs. William Godwin, near Crumpton, on Wednesday evening, March 4th, when Robt. Walmsley and Lela Gosman were united in marriage by Rev. Harry Taylor, pastor of Crumpton M. E. Charge. After the ceremony a reception was given to the bride and groom and a few friends and relatives. The bride and groom will reside near McGinnis' Corner, where the groom is engaged in farming.

Frank Wright, of Baltimore, and for many years connected with the Chester River Steamboat Co., when controlled by the late Budd S. Ford, died at his late residence in that city, Sunday afternoon. He was born in Burlington, N.J., in January, 1838, and was for many years in the wholesale commission business in Baltimore, under the firm name of Frank Wright & Co. 3 years ago, however, ill health compelled his retirement.

Mr. Wright is survived by his widow, Mrs. Margaret Oliphant Wright; two sons, Joseph L. Wright, of Cleveland, O., and Lawrence O. Wright, of Baltimore, and three daughters, Mrs. Edw. R. Dennis, of Ellicott City; Mrs. Robt. S. Maslin and Miss Helen M. Wright, of Baltimore. Six grand-children also survive, as do two sisters, Misses Lavinia L. Wright and Margaret R. Wright, of Rutherford, N. J.

Mr. and Mrs. Robert Creighton and son, Oscar, spent Sunday with their daughter, Mrs. Kelly.

The Osceola Tribe of Red Men held a dance for themselves and families Wednesday evening.

The Lankford Lodge of K. of P. held their annual reception on Friday, March 6. Everybody had a good time.

Mrs. Annie Ashley and daughter, Reba, have returned home after spending sometime in Philadelphia.

Mr. John Kelly, of skinner's Neck, spent the week-end with his wife.

Mrs. Nora Price and children are visiting relatives here.

Mr. Chas. Collison, of Baltimore, spent the week-end with his parents, Mr. and Mrs. John Collison, of this vicinity.

Miss Ruth Cecil and cousin, who have been visiting their aunt, Mrs. Rosa Crouch, of this place have returned to their home in Queen Anne's county.

A daybook kept in 1814, by the owner of a general store in a township of Berks county, Pennsylvania, gives a broad insight into the cost of living 100 years ago, and is also interesting as showing how men lived in that State then.

With nearly every bill of goods charged, for instance, is added a gallon of whiskey, rum or brandy, at 25c a gallon. Large amounts for candles, which were strictly used in lighting the home, are on all the bills, candles costing from 37½ cents to 87½ cents a pound.

Calico was 37½ cents to 75 cents a yard.

Tea was $1 a pound.

In one charge a man bought one quarter of veal at 4 cents a pound.

Eggs were never more than 10 cents a dozen, with 6 to 8 cents the commoner prices.

Chickens, 12½ to 18 cents a piece; geese, 25 cents to 37½ cents a piece.

Beef, 3 to 4 cents; wool, 10 cents to 12½ cents a pound; muslin, 50 cents a yard.

The climax was reached in one charge—one bushel of salt, $16.

THE large assortment of Spring and Summer woolens of the International Tailoring Co., is now on display by W. E. Moody who is their special representative for this locality. This plant ranks among the finest tailoring houses in the country and are well-known as leaders of low prices for high-grade merchandise, prices ranging from $12 50 for made to measure suits up to the finest. Mr. Moody invites comparisons and will gladly show you the line.
