how you could make $200 or wherein you could acquire a good tract of land which would make you a delightful home, would you not take advantage of the opportunity? And this is exactly what you can do if you buy 5, 10 or 20 acres of the "Chestertown Farm Gardens," situated on the macadamized road leading from Church Hill to Centreville, near J. T. Anthony. Some of this land cand be bought for $90 per acre and the best of it can be bought for $105 per acre. We are making this reduced price in order to interest you. There are no other towns on the Eastern Shore near which can acquire such soil, as this at such a price as we ask. Investigate and see. Several of these lots have been bought by people who know what land is. They have built on it. The soil will grow anything. We are in a position to accept EASY PAYMENTS and can assist you if you want to build.

The BANK That Put the FOUR in FOUR PER CENT. and SAFE In Safety.

The Peoples Bank
Chestertown, Md.

FOUR PER CENT. INTEREST and the BANKERS' TRUST

It is to smile.

The officers and friends of THE PEOPLE'S BANK of Chestertown, will be pardoned if they indulge, without offensive display, the pleasure of personal vindication.

A little more than three years ago the PEOPLES BANK began business, and shortly thereafter announced its purpose to pay FOUR per cent. interest on Time Deposits.

At that time there existed in this particular community a Bankers' Trust which was operating under an iron-clad agreement to pay no more than THREE per cent. interest.

The mere announcement that the PEOPLES BANK, a new-comer in the field of banking, proposed to deal more liberally by its depositors and would pay interest at the rate of FOUR per cent. carried consternation to the Bankers' Trust, which was followed by a most remarkable demonstration of antagonism.

Delegations and committees representing banks connected with the Bankers' Trust appealed to the Directors of the PEOPLES BANK to recede from their expressed determination to pay the higher rate of interest.

Failing by argument, sophistry and cajolery to convince the PEOPLES BANK that FOUR per cent. was too much to pay to depositors on Time Certificates of Deposit, other tactics, much less cordial were resorted to. Threats were made that all banks operating under the Trust agreement would immediately advance their rate to FOUR per cent. with the result that the little PEOPLES BANK, the "interloper," would "die a-borning."

This, too, failing in its purpose of "bluff" then began a vigorous campaign of criticism, villification and slander. Every possible means of resourceful and resentful persecution were applied to harass, discredit and embarass the PEOPLES BANK.

In the ordinary transaction of business the PEOPLES BANK was ignored and treated with contempt by the other local banks, the latter going so far as to refuse absolutely the interchange of drafts in the settlement of exchange balances and with-holding other courtesies and customs generally observed between banks doing business in the same community.

In editorial and advertisement, and by verbal communication the purpose to pay FOUR per cent. interest was denounced as the rankest of "wildcat" and "unsafe" banking.

The officers of the new institution were referred to as "inexperienced theorists," "slick promoters," "swindlers," etc. etc.

Much was said and done in violation of the banking laws of the State, and which rendered the traducers amenable to prosecution for criminal libel; and, indeed, action was with-held only from a feeling that the banking business was of a character too dignified to be demoralized by suits for slander, and the further consciousness that time and events would vindicate the officers of the PEOPLES BANK and justify the business policy outlined and adhered to.

Three years have passed away. Mark the transition.

The PEOPLES BANK has successfully withstood the onslaughts of prejudice, criticism and slander.

It has steadily paid its depositors ONE-THIRD MORE interest on savings accounts than its competitors, members of the Bankers' Trust.

It has accumulated a Surplus equal to 20 per cent. of its Capital Stock, and is still adding daily to its profit account.

It has grown in resources from the insignificant $15,000 with which it began business, to the more respectable aggregate of exceeding $200,000, a sum that is double the resources of some banks included in the Bankers' Trust and which have been in business much longer than the PEOPLES BANK.

The hour of triumph and vindication has arrived.

The Bankers' Trust is dissolved, and every bank formerly connected therewith is now, each for itself, heralding in flaming advertisements the announcement that it will pay FOUR per cent. on Savings Deposits.

Is it confession that they now propose to engage in "unsafe banking" or merely a tacit admission that they have heretofore with-held from their patrons and depositors that measure of interest to which the use of their money fairly intitled them?

The result and the moral.

The result—The increase in interest rate means nothing less than that depositors carrying savings accounts in the banks of Kent and Queen Anne's counties will be paid, approximately, $20,000 more annually in interest, than they have heretofore received.

$20,000 a year MORE to depositors, as the direct result of the PEOPLES BANK refusing to yield to persuasion, coersion or persecution.

Think this over carefully.

The moral—As the instrument and agency that brought about the dissolution of the Bankers' trust, the PEOPLES BANK is entitled to and will receive a liberal patronage from those depositors who appreciate the benefits accruing to themselves and others through this general increase in interest payments.

The PEOPLES BANK is ready to serve you faithfully and well.

Cordially submitted,

THE PEOPLES BANK
