SATURDAY, APRIL 11, 1914.

THE women voted in Illinois Monday and by their votes 1100 saloons were put out of business! Who says the women should not have a vote? Their influence is always on the side of right.

A MAN in Hackensack, New Jersey, vows that he gets every day nine eggs from eight hens and a rooster. We won't dispute what this man vows to, but would like to hear that rooster cackle just once and then we would be convinced. We would also like to have a setting of those eggs.

WAGES of farm labores have increased more rapidly than those of the city workman during the past twenty years, a Department of Agriculture investigation has revealed. During the past year the pay of the farm hands increased two and a half per cent.; the increase has been eleven per cent, in the past four years, and 36 per cent, since 1902.

THERE are 24 officials to be named by Mr. Miles, the new collector of Internal Revenue, the aggregate pay of which is $32,400 annually. The list includes one deputy at $2,400 a year, two at $1,800, two at $1,300, seven at $1,200, eight at $1,400, one at $1,600 and two at $600 per year. Besides these there are 10 federal offices to be filled by the collector under the Income Tax law. These latter will be filled by the Commissioner at Washington.

WE tip our hat to Secretary Daniels who has passed an order forbidding the use or introduction of alcoholic liquors on board United States vessels or within navy yards or stations. Thus the Navy follows the railroads and other large concerns. Apart from the influence which the habits of the officers exercise upon the morals of the men under them, the order is to be commended as an act of justice. There is no reason why there should be "one rule for officers and a different rule for the enlisted personnel." The Sun well says, "There is too much official aristocracy and inequality before the military law in both branches of the service, and Secretary Daniels' order might be duplicated in the army with advantage and propriety."

LEGISLATIVE NEWS.

The Maryland Legislature adjourned Monday night, the result of whose work will be written large in the social, economic and political history of the State.

The city press is unanimous in its commendation of the work done as a whole.

In brief we would mention the measure which will work out for this State a means to home-rule, giving the counties a chance to make their own laws at home. If all goes well it will require four years to bring this about.

A measure which creates for the State as advanced an efficient health and sanitation system as any State in the Union enjoys.

An industrial compensation act which definitely relieves employer and employee from the inadequacy, the delay, the expense, and the unfairness in the operation of liability laws springing from industrial conditions so long since changed.

A measure creating for the State the possibility of scientific assessment of property throughout the State and uniform taxation of property throughout the State.

A measure which brings this State well up toward the foremost in the development of the parole and indeterminate sentence.

A measure for referring legislation to the people known as the Referendum will meet with favor.

Under the provisions of the bill the people have the power to veto any act passed by the Legislature and approved by the Governor through the signing of a petition by 10,000 qualified voters of the State.

This petition if filed within 60 days after the passage of a bill will have the effect of holding up the operations of the law until the next election, when the people will decide by ballot whether or not they desire the law.

NOW FOR TAX REFORM

Another Big Piece of Constructive Legislation Gets Through the Legislature.

The bill creating a State Tax Commission and naming as members Hon. A. P. Gorman, Lewin W. Wickes and Oscar Leser, Esqs., has passed and goes to the Governor for his signature.

It is the result of the recommendations made by the commission for the revision of the tax laws of Maryland, of which Henry F. Baker was chairman and Allan C. Girdwood secretary. It is understood that Mr. Girdwood will certainly be made secretary of the new commission.

The bill is another piece of constructive legislation that has come before this session. It has taken years for the State of Maryland to provide for the machinery for the equalization of assessment.

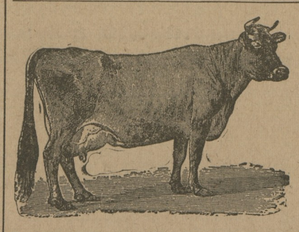

Under the new act, the State Tax Commission has jurisdiction over assessments in the entire State and has power to order reassessment and equalization. About 30 States of the Union have similar tax commissions.

Complaint has been general for years that the properties in different counties and in Baltimore city were inequitable assessed. The difficult task of the commission will be bringing assessments to the same level. The commission has jurisdiction over all tax and assessment laws, over all corporations and supersedes the State Tax Commissioner, which office was filled by Col. Buchanan Schley.

The terms are 6, 4 and 2 years respectively while the salary is $6,000 for Mr. Gorman and $5 000 for each of the other two. Every daily newspaper and many business men have been urging such a commission for years.

GOV. GOLDSBOROUGH has vetoed the Mitchell Bill reducing the age limit of children who work in canneries and packing houses outside of Baltimore city from 12 to 10 years. In withholding executive approval he said: "I do not feel that the State can sanction the policy of the employment of children as young as 10 years of age to work during the heated months of the year at the boards, benches or tables of canning houses."

A YOUTH of fifteen, in Virginia, raised in 1913 132 bushels of shelled corn from one acre of land. The corn was planted May 21 and harvested September 25. The cost of raising the crop was 23 cents per bushel. In addition to the corn he had 365 bundles of fodder, which he sold at 4 cents per bundle. He sold 70 bushels to the Agricultural Department at Washington for $2 per bushel, and the balance at 60 cents per bushel. The cost of manure, plowing, rent of land, fertilizer, working and harvesting was $35 29, giving him a net profit of $161 81 for his labor.

Why I Wear KRYPTOK GLASSES

"I wear them, first of all, because of their convenience. They give me far and near vision in one pair; I do not need to be continually changing from one pair to another.

"I wear them also because of their distinctiveness. They look far better than the old-fashioned double-vision glasses with the ugly conspicuous cemented seam. My friends cannot detect them from single vision glasses.

"That's why I recommend KRYPTOK GLASSES to you."

TRUSTEES' SALE

—OF—

Valuable Farm Land

In Kent and Cecil Counties, Maryland.

UNDER and by virtue of the authority contained in a decree of the Circuit Court for Cecil County, Maryland, in Equity, the undersigned, Trustees therein named, will offer at public sale at the Court House Door, in Chestertown, Maryland, at 12 O'CLOCK M., on

SATURDAY, APRIL 25th, 1914,

the four following tracts of HIGHLY CULTIVATED FARM LAND:

TRACT NO. 1

All that tract of land situate near Black Station, Kent county, Maryland, now tenanted by Mr. Charles E. Faulkner, and containing

288¼ Acres of Land, More or Less,

It being the same tract of land which is secondly described in a deed from David C. Blackiston and others to Elizabeth G. Constable, dated April 27, 1875, and recorded in Liber D. C. B., No. 1 folio 317, etc., one of the Land Record Books of Kent county. It is improved by a good substantial BRICK AND FRAME DWELLING HOUSE in good repair, together with all the outbuildings found on a modern farm. Every foot of this land is tillable and has been recently limed. This is one of the most attractive and productive farms in the State of Maryland. It is situated about half way between Black and Lambson Stations, on the Chestertown Branch of the Delaware Railroad.

TRACT NO. 2

All that tract of land adjoining the farm described as Tract No. 1, tenanted by George C. Johnston, and containing

180 Acres, 1 Rood and 24 Perches

OF LAND, more or less; it being the same tract of land which is first described in the deed mentioned in Tract No. 1. It is improved by a FRAME DWELLING HOUSE, together with the usual outbuildings. This farm has also recently been limed and every foot of it also is tillable. It is the same high-grade farming land as the above tract and is surpassed by none in productiveness.

TRACT NO. 3

All that tract of land situate on the public road leading from Locust Grove to Black Station and tenanted by Cornelius Jarvis, containing

230 Acres of Land, More or Less,

It being the same tract of land which is first described in a deed from Maria G. Knight and others to Elizabeth G. Constable, dated the 23rd day of January, 1904, and recorded in Liber J. T. D. No. 9, folio 40, etc., one of the Land Record Books of Kent county. The improvements consist of a FRAME DWELLING HOUSE in good repair, together with the usual outbuildings. This farm, like the others, is in a high state of cultivation, and is very productive.

TRACT NO. 4

All that tract of land situate on the public road at the corner of A. C. Nowland's land, containing

56 Acres, 3 Roods & 16 Sq. Perches

OF LAND, more or less; there are no improvements on this tract but it is tilled as a part of Tract No. 3 by Mr. Jarvis, and is separated by land of others from the main tract. The above two tracts, Nos. 3 and 4, will be first offered separately and the bids thereon reserved, and then as an entirety; and the sale will be made in whichever manner produces the most money.

No one can make a mistake in purchasing any of these farms either for investment or homes. They have been owned in one family for seventy years or more and have always been kept in a high state of cultivation. They are convenient to schools, churches, etc., and to shipping points on the railroads.

UNDER and by virtue of the same decree as above, the undersigned Trustees will offer at public sale at the Court House Door, in Elkton, Maryland, on

MONDAY, APRIL 27th, 1914,

AT 11 O'CLOCK A. M.,

ALL THAT TRACT OF LAND situate in the First Election District of Cecil county, known as the "BEACH," and containing

479 Acres of Land, More or Less

It being the same tract of land which was conveyed unto Elizabeth G. Constable, by Maria G. Knight and others, by their deed dated the 14th day of December, 1903, and recorded in Liber J. G. W. No. 14, folio 476, etc., one of the Land Record Books of Cecil county. The improvements consist of a FRAME DWELLING HOUSE, one Frame Tenant House and the usual outbuildings, all in good condition. This farm is located at the junction of the Chesapeake Bay and Elk River and has about a mile of water front, on which there are valuable deposits of sand, from which was sold, without any impairment, $2,500 worth, used for building the McCall's Ferry Dam. There is also a valuable fishery on the property. The land is easy to to till and is in a high state of cultivation.

The landlord's share of the growing wheat crop will go to the purchaser of each of the above tracts upon the purchaser paying for the landlord's half of the fertilizer used thereon.

This is an excellent opportunity for intending purchasers of real estate to acquire some valuable land, for this is to be a positive sale made necessary for closing the estate of Elizabeth G. Constable, deceased.

TERMS OF SALE, as provided by the decree are: One-third of the purchase price on the day of sale, the balance upon ratification of sale, the credit portion to bear interest from the day of sale, and to be secured to the satisfaction of the Trustees. Cost of conveyances to be paid by the purchasers.
