OLD FOLKS FIND NEW REMEDY RELIEVES ALL KIDNEY AND BLADDER MISERIES

Drives Rheumatic Pains Away, Relieves Backache and Bladder Disorders After A Few Doses Are Taken

Sleep disturbing bladder weaknesses, backache, rheumatism, and the many other kindred ailments which so commonly come with declining years, need no longer be a source of dread and misery to those who are past the middle age of life.

The new discovery, Croxone, overcomes all such disorders because it removes the very cause of the trouble. It soaks right into the kidneys, through the walls and linings; cleans out the little filtering glands and cells, and gives the kidneys new strength to do their work properly. It neutralizes and dissolves the poisonous uric acid substances that lodge in the joints and muscles, causing rheumatism; and makes the kidneys filter and sift out all the poisonous waste matter from the blood and drive it out of the system.

It matters not how old you are or how long you have suffered, Croxone is so prepared that it is practically impossible to take it into the human system without results. You will find it different from all other remedies. There is nothing else on earth like it. It starts to work immediately and more than a few doses are seldom required to relieve even the most chronic, obstinate cases.

It is the most wonderful remedy ever made for restoring the lifeless organs to health and strength and ridding the system of every particle of uric acid, and you can take it with the utmost confidence that nothing on earth will so quickly cure such conditions.

You can obtain an original package of Croxone at trifling cost from any first-class druggist. All druggists are authorized to personally return the purchase price if Croxone should fail in a single case.

No Matter What You Need, You Will Find It Profitable to Attend

Our 9th Anniversary Sale

The sale grows daily as the news of its economy advantages passes by word of the mouth from delighted purchasers to their friends. It is NOT a sale of a day or a week.

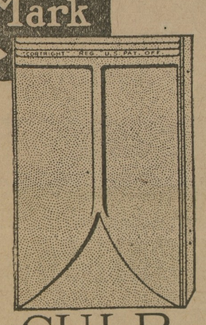

May is our Anniversary Month and is being celebrated with a sale most profitable to every woman, man and child. The values are wholly extraordinary—seldom if ever before equaled here or anywhere.

Our regular supplying manufacturers, wholesalers and importers have sacrificed profits and in many cases a part of their cost (as we have done), with the result that you can choose from thousands of dollars' worth of new and most wanted merchandise—personal wearables for all the family and homefurnishings—at MATERIALLY LESS THAN WHOLESALE PRICES.

Now is the time and THE LEADER is the place to secure actual economies on the very things you would buy at full, regular prices. Make it a point to visit THE LEADER—you'll find scores of good, underpriced things in all departments, at savings not to be equaled at any other store.

Look For This Mark

"CORTRIGHT" REG. U.S.PAT. OFF.

You'll find it on the top of each genuine

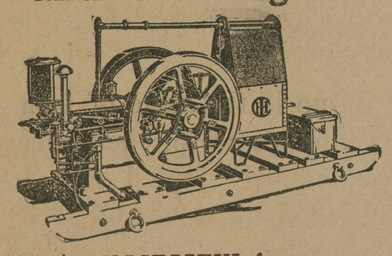

CORTRIGHT Metal Shingle

It is put there to protect you as well as us from the imitator. Roofs covered with these shingles 27 years ago are good today, and have never needed repairs. That's why they're imitated. Therefore, look for this stamp.

GENERAL LINE
Oil and Gas Engines
Oil Tractors
Manure Spreaders
Cream Separators
Farm Wagons
Motor Trucks
Threshers
Grain Drills
Feed Grinders
Knife Grinders
Binder Twine

SUCCESSFUL farmers are no longer asking, "Shall I buy an engine?" They have passed that point and now inquire, "Which engine shall I buy?"

A little careful observation will show that International Harvester engines are the most satisfactory. No doubt is left when features like the following are studied: Detachable valve guides, offset cylinder head, fuel pump, split-hub fly-wheels, extra large intake and exhaust valves, etc.

Ask the men who have used I H C engines. That is the best test. They will explain the excellence of IHC construction, simplicity, strength and durability.

Study the engines yourself at the nearest dealer's where International Harvester engines are sold. They are made in all styles, and range in size from 1 to 50-H. P. They operate on low and high grade fuels.

Write for our interesting and instructive catalogues, and when we send them we will tell you where the engines may be seen. A postal will do.

IM MEMORIAM.

Inasmuch as one of our honored and faithful members has been called from his earthly stewardship, we, the surviving members of the official board of Trinity M. E. Church, South, desire to record the following resolutions:

1. In the removal of Brother George W. Jones our board has lost a member who has rendered most faitful and efficient service. The Church also has lost a loyal member and the community a valuable citizen. While we would not question the wisdom of God in removing our co-laborer from us, we do feel that his going is a distinct loss to us, and we desire to honor his memory by being more actively engaged in the work of the Great Head of the Church.

2. We extend to his sorrowing children, mother brother and sisters, our heart felt sympathy in this time of grief and pray that our Heavenly Father may comfort and sustain them and finally re unite them with their loved ones, who have gone before, in the Heavenly City.

3. That these resolutions be placed in our quarterly Conference record and that copies be sent to the family and to the County papers for publication.

A. E. OWENS, W. A. FELTON, R. W. MOFFETT, B. E. BENTON, B. F. BENTON, CHAS LEGG, LISTON PENNINGTON, WM. G. PENN.

Faithful to the memory of our dear one Mrs Josephine Taylor, who departed this life five years ago, May 17, 1909. Gone but not forgotten.

Life's morn will soon be ended
And the evening bells will toll.
Then my heart will know no sorrow,
When the pearly gates unfold.
BY HER BUSBAND.

As the evening sun is setting
And we are sitting all alone
In our hearts there comes a feeling
That our dear mother must come home
BY HER CHILDREN.

I shall meet her some bright morning
Resting by the water fair
She is waiting for my coming
In the upper garden there
BY HER LOVING MOTHER.

A star may fall from the heaven's
The forest lose a tree
Great waves sink in the ocean
But none be missed like thee.
BY HER SISTER MAGGIE GALAWAY.

In sad but loving remembrance of our dear husband and father, TILGHMAN HUBBARD, who departed this life 8 months ago, May 7, 1914.

A tear within a wife's eye,
A wife's breaking heart;
Can only tell the agony—
How hard it is to part.
BY HIS WIFE.

Three months—oh, father can it be?
The weary months we mourn for thee.
And yet it feels so fresh, the pain.
We count them over and over again.

Rest on, dear father, thy labor's o'er,
Thy willing hands will toil no more;
A faithful father, both true and kind,
A truer father you could not find.

The depth of our sorrow we cannot tell,
The loss of our father we loved so well;
And while he lies in peaceful sleep
His memory we shall always keep.
BY HIS CHILDREN.

BASE BALL NOTES.

The Chestertown High School team defeated the second team of Washington College Saturday afternoon by score 7 to 2. Usilton and Robinson were the battery for school. These public school players tackled the first team Tuesday but were defeated 6 to 3.

Still Pond defeated the Rose Buds 8 to 5.

Washington College lost to St. John's Saturday at Annapolis in the second game of the Inter-Collegiate series by the score of 5 to 3.

Frank Jarman, the Washington College hurler Manager Dunn of the Orioles recently sent to the Wilmington, Tristate Club, made his deput yesterday against the York Club. Jarman held the White Rose aggregation to three hits, fanned as many and did not give a free ticket, only 33 men facing him during the game. Wilmington won 10 to 1. Pedone, the Baltimore sandlotter who is playing left field for Wilmington, had one hit in five times up and scored a run. Jimmy Jackson, the former Oriole, who is managing the Chicks, had a double and three singles in four times up.

Senator Smith Helps Kent

Washington, May 8.—The Senate Committee on Commerce today accepted an amendment to the Rivers and Harbors bill appropriating $12,000 for further improvements of Chester river, Maryland, from Crumpton to Millington. This amendment was offered by Senator John Walter Smith.

Representative Covington asked originally for the appropriation, but the letter from the War Department giving the views of the army engineers upon it was not received by the House committee in time to include the survey in the House bill.

Col. Edward Burr, Acting Chief of the Engineers, in a communication to the Senate committee recommends improvements to the extent of "restoring project channel dimensions below Jones Landing, at an estimated cost of $4,300, and extending the channel six feet deep at mean low water and 60 feet wide, with a suitable turning basin from Jones Landing up stream for a distance of about 2,000 feet, at an estimated cost of $7,700 for first constructions and $1,700 annually for maintenance."

All Records Broken

The world's record for dairy production was broken when May Rilma, a Guernsey cow, the property of the Chesterbrook Farm, Berwyn, Pa., completed her year's test May 1, 1914.

She gave in one year 19,673 pounds of milk, which contained 1,071.41 pounds of butter fat. This test was carefully supervised under the regulations of the American Guernsey Cattle Club, representatives of the Pennsylvania Agricultural Experiment Station acting as the officials.

While the official supervision was under the Pennsylvania Agricultural Experiment Station, the cow's work was also checked by seven similar institutions in other States, one supervision being made by the Maryland Agricultural College.

Albert Van Tuinen is a splendid example of the type of man who gives the best of his work and thought to the creations of the livestock industries. He had May Rilma under constant watch during the test, anticipating her every need and considering no detail too insignificant to be overlooked in obtaining the final result. He planned her daily ration and fed her himself to avoid any chance of upsetting the delicate balance of her production. Even her water was warmed to 70° before she drank, as it has been found that a cow will drink more readily and more water at that temperature. There is nothing to be found more sensitive to even slight changes in feed or treatment than the record-making dairy cow, and no records are broken where there is not the same painstaking attention to detail. Every May Rilma must have her Albert Van Tuinen to make her marvelous record possible.

Before May Rilma completed her test the world's record was held by the Holstein cow Banostine Belle De Kol, which animal produced in one year 27,404.4 pounds of milk and 1,058.34 pounds of fat, but May Rilma goes her 15 pounds better.

The world's record for a Jersey cow is held by Sophie 19th, of Hood Farm, her production being 17,557 pounds of milk and 999 pounds of fat.

The highest producer found among the Ayrshires is an imported cow, Auchenbrain Brown Kate 4th, owned in Pennsylvania, a few miles from the home of May Rilma. This cow's production is 23,022 pounds of milk and 917 pounds of fat.

Although all records are based on the amount of butter fat a cow produced, it is interesting to know the greatest amount of milk produced by a cow during one year. This honor is held by Creamelle Valle, a Holstein, giving 27,591.4 pounds of milk in 365 days. Her milk during this time made an average test of 3.12 per cent. fat, making a total of 924.68 pounds of butter fat. It is almost beyond comprehension to think of a cow giving 3,440 gallons of milk in one year, but there is not a doubt as to their correctness, as all the above records were officially supervised by disinterested parties.

Sallie Fearful — "I certainly would like to marry Charlie, but I'm scared of the hard work, and I have seen too many girls slave their lives away over washtubs and in hot kitchens and lose all their looks after they married."

Anty Drudge — "Well, you needn't to tell me. Those girls didn't know about Fels-Naptha Soap. You go right ahead and marry Charlie and be happy. I will give you a box of Fels-Naptha to start with, and if you will always use it afterward your hard work will be cut in half and you needn't worry about losing your good looks and not having any time to yourself, either."

If you want to get through your washing in half the time next week, use Fels-Naptha Soap. All you need is cool or lukewarm water—Fels-Naptha will do the rest.

Clothes soaped with Fels-Naptha and put to soak are practically clean when you come to wash them. They don't need hard rubbing or boiling. It is just as good for all kinds of housework.

Better buy it by the box or carton. Follow the easy directions on the Red and Green Wrapper.
