SATURDAY, JULY 11, 1914.

A LADY has been engaged in Pittsburg as "director of lunches" in the public schools at a salary of $2500! Kent could furnish hundreds at half that cost.

THE Queenstown News says in 1916 permits will have to be obtained for a man to kiss his wife. What will the fellow do who has no wife?

A MERITED UNDERTAKING

THE Department of Agriculture announced last Wednesday amendments to the regulations for the protection of migratory birds, authorized by a recent act of Congress. By these regulations a closed season is fixed for all sections of the country. The territory is divided into zones. That in which Maryland is located includes also Delaware, the District of Columbia, Virginia, North and South Carolina, Alabama, Mississippi and Louisiana. The closed season for this zone begins on February 1 and extends until November 1 of each year.

BANTAM RAISES PARTRIDGES

Thirty-five young partridges are the result of an experiment which Mrs. Andrew Marvel tried by setting bantam hens on partridge eggs which were found on the Marvel farm. The little partridges are now running around the yard and as soon as they are old enough to take care of themselves will be turned out to help stock this part of the county with these game birds. The experiment probably will result in Mrs. Marvel raising game birds for the State Game Commission and helping the Commission to re-stock lower Delaware.

Wood's Seeds

Seed Potatoes
FOR FALL CROP.

The planting of Seed Potatoes in June and July is increasing to a wonderful extent. A great many farmers claim that they give better crops planted at this time than they do when planted in the spring. Potatoes planted in June and July mature in the cool weather of the fall, at a time when they can be harvested to best advantage.

The Seed Potatoes we offer are put in cold storage early in the season, so as to keep in first-class, vigorous condition.
