MRS. LYON'S ACHES AND PAINS

Have All Gone Since Taking Lydia E. Pinkham's Vegetable Compound.

Terre Hill, Pa.—"Kindly permit me to give you my testimonial in favor of Lydia E. Pinkham's Vegetable Compound. When I first began taking it I was suffering from female troubles for some time and had almost all kinds of aches—pains in lower part of back and in sides, and pressing down pains. I could not sleep and had no appetite. Since I have taken Lydia E. Pinkham's Vegetable Compound the aches and pains are all gone and I feel like a new woman. I cannot praise your medicine too highly."—Mrs. AUGUSTUS LYON, Terre Hill, Pa.

It is true that nature and a woman's work has produced the grandest remedy for woman's ills that the world has ever known. From the roots and herbs of the field, Lydia E. Pinkham, forty years ago, gave to womankind a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for woman's ills.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health—many of them openly state over their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound and in some cases that it has saved them from surgical operations.

NOT VALUABLE DIMES

The report is current that the Ford Automobile Company will present any one with a Ford Runnabout who will forward to the Company's office four dimes bearing the mint marks F. O. R. and D., and a touring car to the one sending the dimes with the above letters, and another with the letter S. But bankers in different parts of the country have declared it impossible to get dimes with all of these lettere and that neither F. nor R. can be found.

The only mints in existence now are Philadelphia, which uses no mark; San Francisco, which uses an S.; New Orleans, which uses an O.; Denver, whoes mark is D. and Carson City which puts C. C. on its coins, and which has minted no dimes since 1893. New Orleans stopped coining, dimes in 1910, but of course there are some of the old ones still in existence. But F. and R. are not to be found at all.

The country has gone wild over the report and thousands of people are busily engaged in trying to get the dimes thus lettered and are offering as much as one hundred dollars for the letters F. and R.

POLICE MAGISTRATE'S OPINION.

Judge Virgil W. Kendall, police magistrate at Chestertown, writes the following interesting letter:

TO THE EDITOR OF THE SUN—*Sir:* I have read with much interest and some chagrin the attacks and burlesques published by the city press upon the Eastern Shore's anti-shipping law which went into effect May 1 last. Being in a position to obtain valuable information concerning the operation of this law I thought it best to wait until the law was in force for at least two months before any reply was offered to these unjust burlesquers.

If these city reporters lived as we do in a community where two-fifths of its population are colored people, and had noticed the great improvement made in the morals of the lawless element of that race since this anti-shipping law became effective, they would not think the law such a burlesque.

There have been fewer arrests for drunkenness and disorderly conduct by at least 40 per cent. in comparison with the police records covering the not openly [illegible] the repeal of this anti-shipping law. I refer now to the nine Eastern Shore counties.

LARGE CATCH OF FISH

Recently, when Ballard Brothers' fishing boat went to their fish pound, three miles at sea, off Hog Island, they saw something that loomed up like an Island where their pound should have been. On reaching their they found the pound, which is forty feet long, thirty feet wide and forty feet deep, so full of drum fish that they had raised the pound partly above the water. One venturesome man walked across the pound from one boat to the other and back on the fish. They loaded both boats, which were supposed to hold 1,000 of these fish, which weighed from thirty to forty pounds each, and turned the remaining fish out. The estimate is that they could not carry more than one-third of the catch. On arriving at Willis Wharf, their headquarters they telegraphed to all the cities, but there was no market for drum fish, which are very edible. They gave to all who would accept, and composted the remainder.—Virginia Citizen
