THE FIFTH DECADE OF A WANDERING BOY

(Written especially for the KENT NEWS.)

Through the shadowy past, like a tomb-searcher, memory ran, lifting each shrowd, that time had cast o'er buried objects.

Our election for clerkship was now over and the sentiment was changed to give we poor fellows who were disfranchised the privilege to vote. We had the State Constitution Convention of 1864 and they opened the way of enfranchising the people of Maryland. The members in our county were Judge Ezekeil F. Chambers, David C. Blackiston and George S Holliday. The sentiment for the high side was very strong and now we had the registration of 1866 that enfranchised a great many of the people who were registered; but still a great many were left out. We had the Constitution Convention of 1867 which helped the people of the state very much in regard to their regaining their citizenship. The members of this Convention were Judge Joseph Wickes, William Janvier, Dr. Massey, Richard W. Ringgold.

My friend who was with me in April 1861, and who, he and I were in suspense for four years and had been so flatly refused registration in 1862 were now registered. But alas, what disappointments and the uncertainty of life, for he was taken ill the latter part of September and died the 26th of September 1866. Born in 1828 he was but 38 years of age, leaving a young wife and little ones and dear relatives and friends. I knew him very well and he was a very good farmer, being especially fortunate in the growth of fruit on the farm now occupied by the Doctor, his son.

One year he planted an orchard, buying a certain amount of Reeves Late Yellow Peach Trees and fortunately the nurseryman gave him about five times as many as he had bought of that variety. I think the orchard was on the Rock Point field which was well adapted to the growth of fruit and he grew of that variety large numbers of baskets which were very fine and in fact the finest that came to Turner's Creek. I remember very well the last time I was to his house. He invited me to the breafast room. He began talking and said that he was in trouble. My wife is very sick and he pointed to the medicine bottles on the mantle. I cannot get away as I have to give her the medicine.

In 1867 we had a County Convention to nominate the various officers of the county. The Democratic Party had full power of the county. I came to the Convention asking for nothing and expecting nothing and proud I was that I had regained my citizenship. At that time we had but three county commissioners. Our district wanted Dr. Kennard but on account of his age and his troubles during the War, he refused the place. The first district nominated C. J. Scott, and our district, unexpectedly, nominated myself and the other district nominated Capt. John Hadaway. We were elected by a prety good majority.

We had a large task before us. We fodnd that when we took the office in 1867 the first Tuesday in December the former County Commissioners had put the roads out in Kent County for $15 per mile and some had as high as 20 miles of road. It was up to us to settle with these people on some of the miles, as some of them had not put one shovel of dirt on some of the roads. This was the time that we had to settle as we had collectors in each district and they rarely collected much money until a few days before Christmas. It was a hard matter with us as to what we should do because some of the people and largest tax-payers were opposed to paying money for work which had not been done. One of the supervisors had taken enough miles to amount to $400 and we were told that some of the miles had not been worked at all. You can readily see how the matter stood with us. Mr. Scott who was a prominent man and a most excellent man of this county was President of the Board. He was puzzled as to what to do so things went on and we worked the best we could.

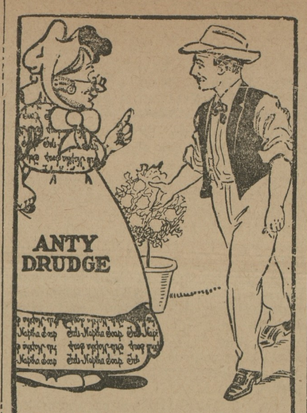

We went over and examined the roads and many of the people acknowledged that they had not worked some of the miles but contended that they took the road at $15 per mile. We compromised but did not aim to pay them for work which they had not done. Now another complication came before the commissioners and was a hard question for us to determine. The Legislature of Maryland of 1865 had passed a Compulsory Act to commission us to issue bonds for $100,000 for Kent County R. R. So we demurred and perhaps for two years until 1869 before we agreed to sign the bonds.

We contended that if Kent county issued the bonds she should have a lien on the road in the future. We also had to levy the interest to pay the bonds in advance. We levied the interest in 1868 though we did not issue nor did we intend to until 1869. We took the interest money which had been levied and built the Sassafras River bridge, i. e., our one-half of it and Cecil county the other. No doubt you will see it was one of the greatest improvements that has ever been done for Kent county. The balance we used to repair and build the school house at Galena. There was considerable dissatisfaction among the people in regard to what we had done with the interest. As the roads had been so much trouble to the former commissioners we put them out in small sections and levied the money so as to pay cash for our road work from 1868 to 1869.

We laid out some new roads and improved many, improved the bridges, but there wos nothing hardly that we could undertake to do that there was not some agitation. In my district, near Kennedyville, there was a branch which ran through the farm of my dear friend, William Welch, and he gave us permission to build a bridge. The bridge there was built of sills and oak boards but every year it would get wider and wider and from ten feet it would stretch to 15 feet. Some of the people came down to see us and we agreed to build the bridge. Our friend gave us the stone which was in his fields and we went to work. We found that it was necessary to put logs down six feet to settle the foundation of the bridge. We used the stone for the foundation with a brick arch and this bridge, I think, the first of its kind in Kent county, requires very little repairs and has not cost much for expenses to Kent county.

Some of the people were much dissatisfied because we had a stone bridge in our neighborhood. I know there are many people who remember the bridge and who have frequently passed over it. So we ended the year 1868 with roads in pretty good condition and taxes not exceedingly high.

Bears the Signature of Chas. H. Fletcher

Mr. Worried—"Anty Drudge, Maria has a bad cold and can't get out of bed. Could you come over today and stay with her? I don't want you to do any work."

Anty Drudge—"Bless my soul! Of course I can. And I'll bring some Fels-Naptha Soap along so's I can do the washing after I've tended to Maria. It won't be work if I do it the Fels-Naptha way in cool water."

Fels-Naptha Soap will do all kinds of work the easiest and the best way—thoroughly and quickly. Fels-Naptha works best in cool or lukewarm water. It does your wash in half the time it used to take; makes your clothes sweet, clean and white without hard rubbing or boiling.

Fels-Naptha makes life pleasant by making work easy, and saves money, time and strength.

Better buy it by the carton or box. Easy directions are on the Red and Green Wrapper.
