Rock Hall Scouts.

Rock Hall Troop No. 1, of Boyscouts, with Scout-Master E. A. Greenhawk at their head, passed through Centreville Wednesday morning, bound for Easton, Talbot county, where they gave a demonstration of scout-craft Wednesday afternoon before the Maryland Convention of Charities and Correction. The troop, numbering fifteen, reached Centreville from Rock Hall Wednesday morning in a gasoline launch. They marched from the landing to the Court House square. Later they were placed in automobiles for the trip to Easton. The Boy Scout organization is rapidly growing stronger in Maryland. Boys from 12 to 18 years are accepted as members, provided they are strong physically and of good morals. The scouts are taught to do a good deed every day, and each lad keeps a diary showing what work he has done. Three classes of scouts were represented in the troop which visited Centreville Wednesday, viz: The tenderfoot or lower class; the proficient, or second class; and the extra-proficient, or third class. A number of the boys wore badges for proficiency in wood-craft, swimming, agriculture and other subjects which scout-work embraces.—Observer.

Hicks' Forecasts for November

A reactionary storm period is central on the 1st, 2nd and 3rd. The Moon is in apogee and full on the 2nd. The Mercury period also will partially affect the elements at this period. A sharp cold wave will follow in the immediate rear of these storms, spreading eastward over almost the entire country, causing frosts far into the South, from about the 2nd to the 5th.

A regular storm period is central on the 7th, covering the 5th to the 10th. The Moon will be at its extreme north declination early in this period, indicating that southerly atmospheric tides will flow northward, bringing reaction to rising temperature, falling barometer and ending in renewed storms of rain, turning to snow. This storm will be at the crisis in the central valleys on and touching the 8th and 9th, being a day or two earlier in the West, and a day or two later in the East.

A reactionary storm period has its central days on the 12th, 13th and 14th. But for the fact that we are now entering well into the Mars period, we certainly would have a minimum of storm-producing causes at this and other November periods. On and touching the 13th—upon which date the Moon is on the celestial equator—rain, wind and thunder storms will be most natural, followed immediately by rising barometer, winds shifting suddenly to the west and north and change to very much colder.

A regular storm period covers the 17th to the 22d, having its centre on the 19th. The new Moon is on the 17th, near perigee on the 16th, and south declination on the 19th. This period will begin promptly on the 17th, with rising temperature, falling barometer and very threatening clouds in the western extremes. These conditions will take up their march eastwardly by the 18th and 19th, and during the 20th, 21st and 22nd they will pass the great central valleys and into the Atlantic coast regions.

A reactionary storm period is central on the 24th, 25th and 26th. The storms of this period will culminate on and about the 26th, on which day the Moon crosses the celestial equator, working from south to north declination.

A regular storm period begins on the 28th, is central on the 30th, and runs three days into December. The storms of this period will not be more than developing in western sections during the last two to three days of the month.

GOVERNOR UNDER KNIFE.

Gov. Phillips Lee Goldsborough was operated on for appendicitis in the Governor's room in the Government House at Annapolis at 5 30 o'clock Saturday afternoon. The operation was declared to have been a complete success, and the Executive's condition is reported as being favorable.

Suffering from pains which began to develop on Monday, but which only assumed an acute stage last Friday, the Governor was compelled to take to his bed. He was very uuwilling to submit to an operation, but he was persuaded to do so by his brother, Dr. Brice W. Goldsborough, who made a preliminary examination Friday night, and by other physicians and relatives and friends, both for his future health as well as the fact that the attack was regarded as an aggravated one.

It was stated by the surgeons, who were present at the operation, that the conditions found indicated that the Governor submitted to the knife at an opportune time. Delay would not have served to better his condition and might have seriously complicated it. At the same time it was possible, it is said, for him to have avoided the operation, but it would have doubtless been at the expense of his health which would have affected for an indefinite period if the cause of his indisposition had not been removed.

THE CALL OF THE FARM.

There never was a time in the history of our country when agriculture was as inviting as it is today, when brains and brawn would bring as satisfactory results from the farm.

With the trades and professions in cities greatley overcrowded, the farm becomes more and more the bright and beckoning star of hope to millions of young men.

Surplus energy of the cities would do well to turn its attention to the farm, and the wise youth of the country will stay right where he is—where opportunity is always before him.

Keep your eye upon the green fields of the country, for there is no better place.

IN MEMORIAM

In sad but loving remembrance of our dear daughter, MRS. CLARA E. SIMMS, who departed this life two years ago, the 4th of Nov., 1914.

We may sleep, but not forever,
There will be a glorious dawn;
We shall meet to part, no, never,
On the resurrection morn.

MOTHER AND FATHER.

High Place On The Roll of Honor

It is with pleasure and commendable pride that we find the Kent County Savings Bank higher on the Roll of Honor than any other State Bank in the county.

The Roll of Honor of the State Banks and Trust Companies of Maryland is a table prepared by the Bank Commissioner from the reports of condition made to the State Banking Department. To secure a place on the Roll of Honor a Banking Institution must show surplus and undivided profits in excess of its capital stock—that is, assuming the capital at one hundred per cent. the surplus and profits must exceed that percentage. In other words, to be entitled to a place on the Roll of Honor an Institution must have, in the form of surplus and profits combined, an amount larger than its capital, and its numerical order on the Roll of Honor is based upon the percentage of this amount to its capital.

According to the last Reports of condition to the Bank Commissioner, there were in operation in the State one hundred and twenty State Banks and Trust Companies. Of these forty (or about 35 per cent,) are entitled to positions on the Roll.

The Kent County Savings Bank was ranked 12th with a percentage of 205.13. Its motto is "SAFETY BEYOND ALL ELSE."
