VOL. 76. CHESTERTOWN, MD., SATURDAY, MARCH 20, 1915. NO 45

Davis & Satterfield

CROSS ST., NEAR DEPOT

Your Fencing Operations are now receiving your attention.

WHEN YOU BUY FENCING THE BEST IS ALWAYS THE CHEAPEST.

The AMERICAN FENCE is the best fence for all purposes. The galvanizing is better than it was years past. The steel is covered more uniformly, making the galvanized coating more ELASTIC than before.

This fence is heavier in guage than other makes of fence and yet it is no higher in price. 40 rods of 10 bar fence is now 54 pounds heavier than it was a few years ago. Stays in all our Field Fence are never more than 12 inches apart, in some fences they are 14 inches apart.

Another important thing is all our fence is kept in good warehouses, none of it ever stored in the weather. Many styles and sizes to meet your requirements.

LAWN FENCE. Globe Lawn in different styles and sizes. Gates to match, either walk or drive.

STEEL FENCE POSTS have been in use since 1898. They are cheaper in the end than wood posts, every one is uniform, and the same size. Two men can set 200 line posts a day. No staples are required as all fastings come on the posts. Galvanized both inside and out, makes them last for many years.

END AND CORNER POSTS also carried in stock.

Anything in the fence line you need we can supply.

Why we Welcome Small Accounts

¶ Because we are building for next year, and the next, and all the years to come. The carpenter of to-day may be the big contractor of to-morrow. A clerk may be proprietor next week.

¶ With an eye to our depositors' future and our own, we welcome small accounts—as well as large ones—AT FOUR PER CENT.

MILKING BY MACHINE!

A Visit To The Dairy Farm of John Schauber & Bro., Near Chestertown—36 Cows Milked In 45 Minutes By One Man And A Boy.

NEW ERA FOR THE FARMER

The NEWS man left his home in Chestertown Thursday evening at 6 o'clock, rode out to the dairy farm of John Schauber & Bro., several miles distant, saw 36 cows milked by Mr. Schauber and his son and returned home at 7 P. M.! As to how this was done is the object of this article. The Messrs. Schauber supply Chestertown with most of the milk used by the residents and it has required Messrs. John Schauber, John Latham, a colored man and three boys, Albert Schauber, aged 12, Bradford, aged 11 and Richard, aged 10, to be at the 40 cows' side from early morning until late in the evening to accomplish this task.

We walked into the newly whitewashed stable and remarked about its cleanly condition and roomy stalls. Here a little boy and his father were milking the forty cows by machinery! We asked the little fellow what he thought of the change. His eyes sparkled like diamonds as he with a broad grin replied, "My, just think of the long naps we boys can get in the mornings now!" Mr. Schauber was equally as delighted but put his pleasure in the thought of the relief from worrying about labor, etc. The cows were standing quiet and seemed to enjoy the new sensation. Fresh water in individual fountains with feed boxes adjacent occupied each "stall" while ten cows were "haltered" at one pull of the lever a patent of Mr. Schauber. Manure is carried out each day by means of a car hung from an elevated track and this car is emptied outside in the pound or manure spreader. As the milk is put in cans, one of the boys carry it to the cooler from where it is taken by Mr. Adam Schauber, put into bottles by machinery at 28 bottles per minute and then placed into the wagon ready for morning delivery.

This dairy gets from 150 to 175 gallons of milk per day and besides selling a large quantity in town makes from 20 to 60 pounds of butter per day which also finds a ready sale here. The cows were nicely quartered in a roomy stable 56x30 feet with silos convenient and plenty of feed in bags stored in a feed room. Mr. S. has about 70 cows in a 132-foot building of which 36 are in the milking department.

Mr. Schauber estimates that his machine will pay for itself the first year in the saving of labor alone. During the busiest season, no matter the kind of work, all hands stopped about 4 o'clock and took up the milking. Now with the milker, Mr. Schauber alone, with a boy to do the stripping, can do the milking of say 50 cows in about one hour, with an increase in the quantity of milk from the same number of cows over hand milking.

The cows stand much quieter than for hand milkers. This is especially true of heifers with their first cows, showing the suction or upward squeeze is most natural and pleasing to the cow, and the milker never loses his temper nor goes on a strike. From a sanitary standpoint it is far superior to the best hand milking and this is a great thing in favor of the new method.

The machine in use at Schauber's dairy is known as The Sharples Mechanical Milker and of the thousands of users there has been but one rejection. It is sold by Messrs. Graham & Thomas, Chestertown. It fills every requirement.

No one task about the farm is quite so uninviting—yes, even loathsome—as milking by hand the long line of cows twice a day the year round. Sundays—holidays—every day, it is always the same tedious, tiresome task which has kept thousands out of the dairy business, driven a large part of the better class of hired help to seek other employment, and the sons of the household from the farm to the city. The nightmare of the dairyman has been to get and keep good, reliable, cleanly, gentle, efficient milkers who would stay right on the job twice a day, three hundred and sixty-five days a year.

This machine costs from $300 to $600 according to the number of units employed, and consist of a small engine and three milkers.

THE Lyceum Theatre offers some special attractions next week. On Monday and Wednesday evenings, in addition to the regular program of best motion pictures, Panther and Co. will appear in a novelty presentation of genuine Sioux indian songs and dances. No extra admission will be charged for this pleasing vaudeville picture. On Tuesday evening, Marguerite Wilson Mass will give a piano recital under auspices of many of the prominent ladies of the town. On Thursday evening, in addition to other pictures, the third episode of the "Perils of Pauline," will be shown. Regular program of pictures other evenings during the week.

THE sale of mules by R. J. McWhorter on Saturday was well attended and the 30 mules averaged about $240 a pair.

Messrs. John Schauber & Bro. invite the citizens of Chestertown and community to an exhibition of his

Sharpless Milker

THURSDAY AFTERNOON,

March 25th.

Milking to begin at six o'clock. Also to inspect the sanitary condition of his stables and the health and condition of his cows.

Should weather conditions be bad, exhibition next evening.
