Bolgiano's "Greater Baltimore" Tomato
Just Doubles The Yield

Better Than Stone Ever Was

Bolgiano's "Greater Baltimore" Tomato just doubles the yield of many of the best Canning Tomatoes you have ever grown. Smooth, well-formed and deep from stem to blossom. Ripens evenly to the stem and is entirely free from ridges, cracks and blight. Unrivalled shipper, due to its solidity and firmness. Fruits in large clusters at every second joint. Joints are short and sturdy. Vigorous, compact, healthy vines. Brilliant red color, one of the handsomest tomatoes you have ever seen.

THE NEW STANDARD

"Itis largely the EARLINESS and UNIFORMITY with which the plants bear a LARGE NUMBER of LARGE, SMOOTH FRUIT throughout the ripening season, that makes Bolgiano's 'Greater Baltimore' superior to Stone which has been the Standard canning variety for many years."

"During our Picking Season from July 25th to October 1st, Bolgiano's 'Greater Baltimore' yielded nearly 22 Tons Per Acre.
PROF. J. C. BOYLE,
Dept. Hort. Purdue University.
Lafayette, Indiana.

TREMENDOUS CROPS YEAR AFTER YEAR

---1913---

T. A. SNYDER PRESERVING CO., Chicago, writes: "Enter our order for Thousand (1,000) pounds 'Greater Baltimore' Tomato Seed. Bolgiano's 'Greater Baltimore' produced the largest, the most Tremendous Tomato Crop we have ever had in our lives at Fairmount, Marion and Tipton, Indiana."

---1914---

T. A. SNYDER PRESERVING CO., Chicago, writes: "We have been so busy with our Big Tomato Crops, we have neglected writing you in regard to Thousand Pound Bolgiano's 'Greater Baltimore' Seed for our 1915 crops.

"We feel satisfied you are going to have a lot of good-sized orders this year from the canners of Indiana, because they have seen our fields of 'Greater Baltimore' growing."

TWO TONS PER ACRE MORE

On January 30th, Mr. Wm. B. Plummer, of Kent Co., Md., writes as follows: "I have planted many varieties of Tomatoes, but have not found any other to do as well for me as the 'Greater Baltimore.' The past season we gathered over two tons per acre more than any other varieties. It is one of the best varieties that can be planted for canning purposes on account of firmness, standing drouth or wet weather. They are the first to ripen and continue firm and good-sized until frost."

FARMERS CLUB

Interesting Meeting at the Home of Mr. Tilghman Shafer.

The last meeting of the Still Pond Farmers Club was held as the home of Mr. Tilghman Shafer.

A letter from the Direct Legislative League of Maryland was read, but as it seemed to have a political flavor it was laid on the table without discussion.

Mr. and Mrs. E. A. Corey were welcomed back as members of the club. A committee was named, at the request of Mr. Corey, to make an effort to get a rural delivery of mail on all legal holidays. The president named Mr. Corey, Mr. Roseberry and Mr. Williams on this committee.

The tomato subject was discussed very briefly. The only contracts made so far are by one Baltimore packer at $9.60 The Still Pond station canner offered $9.50, but made no contracts.

Mr. Shafer opened the discussion, "Does improved machinery decrease labor and expense of farming?" He mentioned the reaper, corn planter, corn sheller, thresher and milking machines, and gave figures to show that they all saved much labor and expense. The methods used before these machines were invented were very tedious and costly. Mr. Pennington told how wheat was grown and threshed befose the war. He said it cost more to grow it then than now, but it sold for more money and the farmer got more profit. Mr. Cornelius said it would be impossible to grow such large acreages as are now grown if we did not have the improved machinery. The amount of work done by two men with a reaper or potato planter was compared with what they could do without them. However, there were more farmers who owned their land in the good old days, when labor could be had at $50 per year for a man and $15 per year for a boy. Mr, Chapman said he started work on a farm at $60 per year and saved enough money to buy a farm. Mr. Jarrell said he remembered when good cows sold for $8 or $10 a head and some farmers gave away pigs to get rid of them.

The wheat crop and prices were next discussed. The use of fertilizer on wheat in the spring was recommended. While the price of wheat did not advance in time for the farmers to get much benefit on last year's crop, it was considered that he has a good chance to get high prices for this year's crop. Mr. Clews said he believed the Dardanelles would be opened in time to affect the price of this year's wheat crop.

Mr. Clews, Mr. Shafer, Mr. Hill and Mr. Cain were named as a committee to ask for a flagman at the Kennedyville railroad crossing.

The next meeting will be at Mr. F. H. Cornelius' April 29th.

SHEPHERD OYSTER LAW IS UPHELD

State Board Loses—Court of Appeals Filed Opinion In Cox Case

Sustaining in most positive terms and manner the validity of the oyster cultivation and conservation law as remodeled in Chapter 265 of the Acts of 1914, and known as the Shepherd law, the Court of Appeals last Thursday morning filed two opinions of importance to the life of the oyster industry of the State.

Both opinions were prepared by Judge Urner. One case was from the Circuit Court for Somerset County and the other was appealed from the Circuit Court for Talbot County. The former is the case of George A. Cox against the Shellfish Commission and the other is the action of the Shellfish Commissioners against Joseph Mansfield.

In the court case at Princess Anne the question at issue among the attorneys was as to the constitutionality of the new law. The arguments were based on this and the testimony was to bring the question of constitutionality to issue.

The Circuit Court for Somerset county sustained the constitutionality of the law and the case was immediately appealed. The action of the Court of Appeals means that the oyster policy of the State shall be according to the viewpoint of natural bar oystermen.

COURT INTERPRETS HARFORD FSIH LAW

Judge Harlan rendered a decision in Bel Air on April 10th which clears up the legal tangle which has embarassed up the bay fishermen. The court in releasing Lotan H. Raison and W. H. Watkins on a writ of habeas corpus, held that the State Fish Law of 1908 supercedes the Local Harford County Fishing law passed during the last Century; and that fishermen from other counties than Harford may place fyke or pound nets in the waters of the Chesapeake Bay off the shores of Harford County.

The accused men had been arrested at the instance of Stephen C hee, keeper of the Poole's Island Light house. The offence charge was placing fish nets in violation of the Harford County Local Law prohibiting non-residents of Harford County to fish in county waters. It appearing that the fish nets in question were placed between Lego Point and Robins Point off the Harford County shore, but in the waters of the Chesapeake Bay, the Court discharged both Rasin and Watkins.

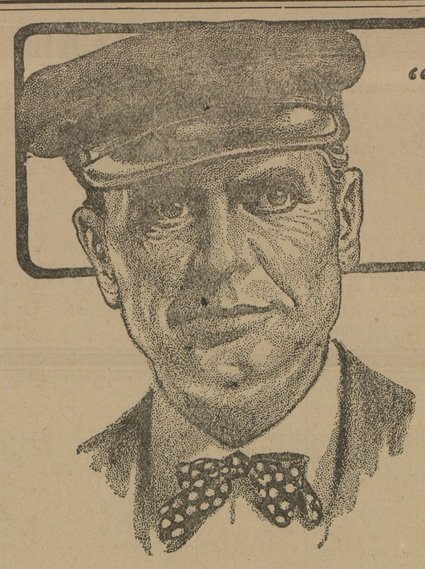

TO SEE SERVICE AMONG THE ALLIES.

Mr. A. Travers Ewell, well-known in Chestertown, son of Col. and Mrs. Thos. J. Ewell, of "Unity Hill" farm, near Cambridge, will sail on Saturday, on the French Liner Niagara, from New York, enroute for Bordeaux, from which point he will go to the front as a member of the American Ambulance Hospital. The base hospital of this American Relief Work is located in Paris, and Mr. Ewell, who is a well-known civil engineer, expects to operate as a driver from the front to the base hospital.

Over 60 ambulances are now engaged in this work, supported entirely by Americans.

RECITAL AND MUSICAL

An enjoyable recital and musical was given by the ladies of the Westminster Presbyterian Church, Georgetown, last Thursday evening, April 8th, before a large and appreciative audience. They were assisted by Mrs. Virginia Jones Lattomus, of Wilmington, Del., a charming elocutionist and reader, who delighted her audience with selections both humorous and dramatic. Her recitations were beautiful and were given with a fineness of interpretation and expression which were pleasing to all. The Chestertown Quartette, composed of Messrs. Chapman, Sparks, Perkins and Thompson, gave two beautiful selections, which were greatly appreciated. The Doll Drill, by eight little girls, was another pleasing feature. After the performance was concluded, ice-cream and cake were for sale and a good sum was realized.

"The Thinkers of the Country Are the Tobacco Chewers"—
said one of the greatest thinkers this country ever produced.

Says the Pilot:

"Nosing a big stern wheeler along a muddy river with sandbars reaching up to grab her—that's when you need *real* steadiness. When there's nothing but your judgment between your boat and a shoal, take a chew of PICNIC TWIST."

In every convenient twist of PICNIC you'll find the true tobacco uplift without the letdown that comes from dark, heavy, rank tobacco. PICNIC TWIST is a light colored, *soft* twist of the mild, mellow parts of the leaf.

Men accustomed to "strong" tobacco will be surprised how much they can chew of this mellow twist with its sweet, *lasting* taste.

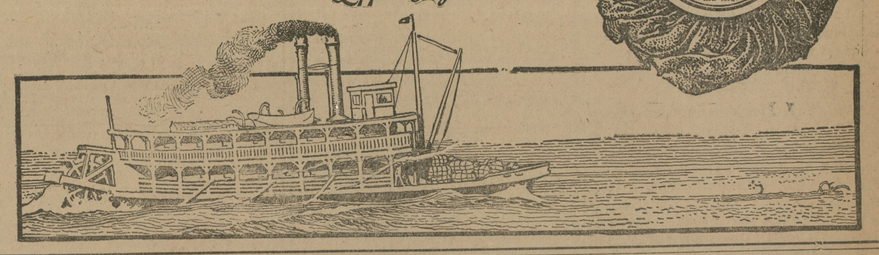

PicNic Twist 5¢
CHEWING TOBACCO

"The Thinkers of the Country Are the Tobacco Chewers"

It comes, also, in economical, freshness-preserving drums of 11 twists for 50c.
