SATURDAY, APRIL 17, 1915

It has not been definitely settled that St. John's College will not join the State University as planned by a bill passed by the last Legislature.

April certainly is prolific in its weather hand-out. Sleighing on Easter Monday and a thunder storm twelve hours after with roads blocked with snow several feet deep.

The recent session of the Maryland Annual Conference was of unusual interest in that the President of the United States, Secretary of State Bryan, Secretary of navy Daniels, Dr. Howard Kelley and other notable men made addresses there. Dr. J. S. Bowers, a Kent "boy" presided with marked ability and perfect fairness.

Dr. John S. Fulton, secretary of the State Board of Health, was very much pleased Wednesday by news of the decision of the Court of Appeals in the case in which the County Commissioners of Baltimore county contested the power of the board to order an issue of bonds to pay for sanitary improvements and sewerage systems in counties and communities throughout the State.

The last Legislature gave the Board of Health authority to order such issues, the approval of the Governor and the Attorney-General being sufficient warrant for such an issue and a special grant in each case from the Legislature unnecessary.

"The decision of the Court of Appeals, I am informed, upholds the constitutionality of the law and the authority of the board to order such an issue of bond," said Dr. Fulton. "It does give the County Commissioners the opportunity to contest the action of the board again, but such a second contest must be on the ground that the improvements ordered by the board in Baltimore county were unnecessary.

"This is a very interesting point, as it concerns the action of the board in all quarters of the State."

This case is the one which caused the local authorities in Chestertown to discontinue all work looking to a removal of water works, etc. It will be several months before another opinion is given.

The election for one member of the Board of Town Commissioners to succeed Mr. Wm. T. Duyer, who declines to stand for re-election, will be held on Monday, April 26th. Mr. Robert Moffett is the only candidate thus far, and will not have any opposition. The Water Board will also be elected at same time, and it now looks like there will be no opposition to Messrs. W. S. Culp, C. N. Satterfield and R. H. Rogers. Mr. Harry R. Graham refuses to serve for another term.

Miss Emma S. Jacobs, supervisor of Domestic Science in the public schools of Washington, D. C, and Dr. Martha Lyon, of the same city, gave a lecture on Domestic Science in the Chestertown High School last Friday evening. Miss Jacobs talk was on the value of vegetables in the diet and how to cook them, the value of meat in the diet and how to cook it. She also showed how to make a fireless cooker. Dr. Lyon talked on "The Care and Feeding of Babies," "A Clean-up Campaign or How to Treat a House," The Minor Illness and Emergencies. It was greatly enjoyed by the people.

In the death of Mr. Lewis P. Atwell, Kent county has lost a good citizen. He was a man of the highest integrity and an official of conscientious motives.

The Baltimore Sun in speaking of liquor calls it, "this enemy that men put into their mouths to steal away their brains!"

Great Britian is on the brink of prohibition. It will, in first instance, be only for the duration of the war, but it is quite recognized by social reformers if it once comes into operation the drink traffic can never again resume its former dominion in that country. Incidently, the King himself has declared for prohibition and in a letter expressed his readiness to bar all liquors from the royal household.

The maintenance of the good roads of the State got a big lift Tuesday when Motor Vehicle Commissioner Roe announced that the net revenue from automobile licenses during the fiscal year of 1914 is $295,859.27. This fund devoted to the upkeep of State highways, and it has reached such proportions that with the revenue derived from one cent of the State tax rate a sum is in sight which is almost sufficient to provide for road maintenance without additional taxes. The estimate of maintenance is about $450 per mile throughout the State.

We know you like good, pure Ice-Cream, and you should do so

Pure Ice Cream! Has the thought ever entered your mind, while enjoying a plate of cream, under what conditions it was manufactured?

Did you ever investigate the plant in which the cream you have been in the habit of buying is made?

Do you appreciate the fact that there are different qualities of Ice Cream sold at exactly the same price that good, pure cream can be obtained for?

To produce absolutely pure, wholesome Ice Cream, the manufacturing plant and general conditions must be sanitary from the foundation. Cleanliness must be the watchword. Good material the substance. Careful and clean help in attendance.

Ice Cream is a Pure Food Product—a Wholesome Product—an Appetizing Product—if you know that is manufactured under absolute cleanly conditions.

Ice Cream manufactured by the Chestertown Candy Kitchen at their establishment on the corner of High and Cross Streets, is made under strict sanitary conditions, from the best products the markets afford, and cost you no more than the inferior grades sold elsewhere.

The Chestertown Candy Kitchen solicits your business for home use. They serve the family trade as well as dispense their Pure Ice Cream and Fancy Ices in boxes or packed, Soda Waters, Fancy Sundaes, etc., at their store at High and Cross Streets.
