VOL. 77. CHESTERTOWN, MD., SATURDAY, MAY 15, 1915. NO 1

Davis & Satterfield

CROSS ST., NEAR DEPOT

Your Fencing Operations are now receiving your attention.

WHEN YOU BUY FENCING THE BEST IS ALWAYS THE CHEAPEST.

The AMERICAN FENCE is the best fence for all purposes. The galvanizing is better than it was years past. The steel is covered more uniformly, making the galvanized coating more ELASTIC than before.

This fence is heavier in guage than other makes of fence and yet it is no higher in price. 40 rods of 10 bar fence is now 54 pounds heavier than it was a few years ago. Stays in all our Field Fence are never more than 12 inches apart, in some fences they are 14 inches apart.

Another important thing is all our fence is kept in good warehouses, none of it ever stored in the weather. Many styles and sizes to meet your requirements.

LAWN FENCE. Globe Lawn in different styles and sizes. Gates to match, either walk or drive.

STEEL FENCE POSTS have been in use since 1898. They are cheaper in the end than wood posts, every one is uniform, and the same size. Two men can set 200 line posts a day. No staples are required as all fastings come on the posts. Galvanized both inside and out, makes them last for many years.

END AND CORNER POSTS also carried in stock.

Anything in the fence line you need we can supply.

DOWN THE COUNTY

Mrs. Susie Dowling and daughter, Miss Alice, spent a few days in Baltithis week.

Mrs. Alverta Becker and little niece, of Baltimore, are visiting friends at Edesville.

Miss Anna Rodney who has been spending sometime with her brother, has returned to Broad Neck.

Mrs. Lynda Rodney who was operated on last Friday at the Maryland General hospital is greatly improved.

"Mothers Day" was observed at Wesley Chapel church with appropriate service last Sunday. White flowers were worn by all.

Supt. Noland of the Tolchester Co. and Mr. T. L. Stine have quite a force of workmen on, preparatory to opening the season at that place.

Mr. Wallace Wheat left on Monday for Frederick, Md. He will be gone all summer as he operates a carrousel for Mr. T. L. Stine at different places.

Owing to the large crowds, the many teams, autos, etc., it is a great pity that the main street of Rock Hall is so narrow as it makes it both dangerous and unpleasant as it is Why don't we have a ladies improvement society here to push things? Like some of our sister towns do.

The ladies of Wesley Chapel Church met at the home of Mrs. Elwood Burgess on last Wednesday in order to organize a Ladies Aid Society. They have about twenty members at present, and will meet once a month at the church hall. All are cordially invited to attend. Mrs. H. W. D. Johnson is president.

"Mothers Day was also observed at Rock Hall, special music all day. In the evening Mrs. Maggie Apsley read a paper on "The influence of a mother's prayer in childhood and in later years," while Mr. Frank Legg gave a most interesting talk on the conditions and surroundings of Rock Hall as he remembered it seventy one years ago and the present conditions. How at that time they had preaching but twice a month; went bare-foot to church and Sunday school, and had a lady superintendent. He spoke of how they all worked with such untiring energy to build the brick church that was later destroyed by fire, and what interest centered around the making of each brick. This work being done at Rock Hall. This talk was enjoyed by all especially the younger people of the church; was perfect but for one thing—Mr. Legg spoke of the old folks of the church as in the way. The old folks of any church are ever a help, an inspiration to the younger members; without which we would be sadly at a loss. And speaking for this one particular church—never in the way. The music on this occasion was splendid. Mr. Harry Jeffries who was supposed to sing was unable to attend.

A small daughter of Mrs. Frank Porter was attacked by a vicious dog here on Saturday last, and her head was badly lacerated. No serious results are anticipated. Officer Bramble killed the dog, which belonged at the Chesapeake Hotel.

Mr. and Mrs H. Crew, of near Worton, spent the week-end with relatives here.

A small force, under the supervision of "Uncle" George Biddle, are repairing the road between the southern limits of town and Grey's Inn. This section of road has long been in need of repair.

Our fishermen are having the worst kind of luck so far this season, owing to the scarcity of shad and immense quantities of sea nettles.

As we gather in its turmoil or mingle in its strifes, it is sweet to be remembered even in this life. Our 60th birthday anniversary was happily remembered by the girls from home. And such remembrance makes the burden lighter.

Mr. Robert Lewis, on Saturday afternoon, from 12 till 6, ente tained the Skinner's Neck voters at Ford's landing with an oyster feast, oysters being served in every style imaginable, under the supervision of "chef de cuisine" Peter Kelley. Recitations, songs and oratory were the features of the affair. Edwin Boulter was master of ceremonies, Edw. Smith was recitationist, Nelson Watson was soloist and Capt. T. W. Hyland was the orator of the day. Quite a large audience was present, among whom we noticed, besides those mentioned above: John Boulter, Wm. and George DeFord, Albert, Edward and Herbert Watson, Charles and Howard Kendall, George and Tetal Kelley, Thomas Collyer and others.

The drought in this section was broken on Wednesday, to the relief of man, beast and vegetation.

Excavating for the foundation of the new high school building for this place is now under way.

GORMAN ON PROHIBITION

Says Question Should Be Submitted To The People.

The Ellicott City Times, controlled by Arthur P. Gorman, says editorially, that the question of state-wide prohibition ought to be submitted to the voters of Maryland. The editorial says in part:

"We believe that whenever a question affecting the welfare, happiness, social condition and tranquility of the people of either country, state or nation has arisen the surest and safest way for its proper solution is for the submission of that question to the people of the particular territory or locality affected. We are of the opinion that a large number of residents of Howard county are in favor of submitting to the people the question of prohibiting the sale of intoxicating liquors within the State of Maryland. We believe that the number of people making this demand is sufficient to warrant the submission of the question for determination by the people.

"As a general principle it is unwise to elect representatives to the legislature bound with instructions as to how they shall vote on questions to be considered by the legislature. We think that, in most cases, they should be permitted to exercise their own judgment. Yet conditions may arise that may not only warrant such instructions, but make them necessary.

"We believe it necessary that the Democratic party of Howard county, in convention assembled, instruct and obtain a pledge from its nominees for the legislature to support and vote for a bill submitting to the people of the state the question of the prohibition of intoxicating liquors within the state. We state with emphasis that this question is not a political one, nor should an attempt be made to make it a political issue by any party, but it is a question which peculiarly concerns the people as a whole."

GOV. PATTERSON IN KENT

A Splendid Meeting Held in Chestertown Friday—Herbert E. Perkins Presides—The Ladies In Majority.

The meeting Friday in the interest of the Anti-Saloon League was called to order by Herbert E. Perkins, Esq., in the Chestertown Lyceum in an appropriate manner. Dr. Hare, the first speaker, said they had come to Chestertown from Havre de Grace and that it was like coming from hell to paradise. Of course, the doctor was drawing on his imagination!

After the collection and speech by Dr. Hare, Mr. Perkins introduced the speaker of the afternoon, former Governor Malcolm R. Patterson, of Tennessee. Governor Patterson began by stating to the audience that he had changed positions upon the liquor question; that he had been elected Governor of Tennessee twice upon a local option platform, and that when a State-wide prohibition bill was passed during his second term he vetoed it, as he had stated that he would do, and then saw the bill passed by the Legislature over his veto. Since then he had been brought face to face with iniquities of liquor; he had seen the evils done, the homes ruined, the happiness of fathers and mothers, women and little children forever blasted by liquor, and he had come to a realization that the liquor traffic was wrong from start to finish, and that there was only one way with which to deal with it, namely, to drive it out, root and branch, from the whole country.

Governor Patterson made one of the plainest, most sensible arguments ever heard upon the question. He spoke of the convicts filling the penitentiaries of the land; of the poor unfortunates filling the insane asylums, and stated that the statistics showed that nine out of every ten of these either directly or indirectly owed their fall to the use of intoxicating drinks. Conditions of poverty, misery, want and suffering go hand in hand with the use of intoxicants. The rich oftentimes become poor, and the poor poorer, as the result of its use; every sacred tie on earth has been the victim of its devastating influence, and of what benefit has it been to anyone? Who that uses intoxicants can point to a single good that is done by them. Who that uses intoxicants wants his sons to use them or his daughters to marry drinking men? And yet the public tolerates the dispensing of this poison to the boys and girls of the land.

The United States Government permits its sale, but refuses to let its Navy or soldiers drink; the leading business industries of the country refuse to employ men that drink; no man can be found who will claim that drinking improves a man in any way, while millions can be found who know that it is filling our prisons and insane asylums, and yet the government legalizes its sale.

The speaker closed with an eloquent plea that Maryland join the ranks of those States that are refusing to place before their citizenship the temptation to become servants of rum, and predicted that within five years the whole United States will be dry. He quoted figures and facts to show that dry sections are much more prosperous than the wet ones, and stated that if the Czar of Russia, on the eve of the greatest war the world has ever seen, when every country was husbanding its resources, could see the benefits of doing away with the liquor traffic, which was bringing in a revenue of $500,000,000 annually, and has found in a short time that the increased efficiency of his subjects more than offsets the loss, certainly the people of the United States will not hesitate to drive out the scourge which threatens the very life of our nation.

LINER LUSITANIA TORPEDOED

1,250 Lives Lost—80 of the 188 Americans Aboard Safe.

The latest estimate of lives lost as a result of the torpedoieg of the Cunard liner Lusitania by a German submarine off the Irish coast last Friday is 1,256. It is believed that almost all, if not all, the survivors have been brought ashore, and there is little hope of recovering any other passengers alive.

There were 188 Americans on board the Cunard liner. So far as could be ascertained, 88 Americans were saved. Latest estimates indicate that at least 1000 bodies are still in the sea and hundreds probably will never be recovered.

Insurance on the Lusitania amounted to $7 500,000. The vessel was valued, in round figures, at $10,000 000. The worth of the cargo she carried was reckoned at $735 000.

On her manifest the largest single item was listed as "cartridges and ammunition, 4,200 cases, $152,400."

It is important, we think, to point out that this great calamity is by no means a cause for a declaration of war by this country against Germany, even though it resulted in the destruction of the lives of American citizens. They were of their own volition aboard a British vessell loaded with ammunition, etc., to be used in war against Germany. They had been warned not to sail on her, yet did so. The captian was even warned by shore not to proceed by the old route but to change his course, yet failed. The British Goverument also did not furnish a convoy even after all these warnings.

That Germany will, and should be, made to pay dearly for her offense against Americans we may well believe, but it will not be through the agency of a declaration of war. President Wilson has won for himself a reputation for cool-headedness and intelligent handling of difficult situations and while this is a much more grave one than any by which he has been confronted, it seems quite safe to leave the issue in his hands, and no greater patriotism can be shown by Americans at this time than by refraining from any act or utterance which might in any way embarass the Chief Executive.

A FRIGHTFUL ACCIDENT

On Tuesday night while two of Millington's young men together with five popular young ladies were out for a ride the automobile ran off the Chester River Bridge and turned turtle in the water about fifteen feet below! The automobile is almost a wreck, but none of its occupants were very badly hurt, only receiving a few bruises, a frightful scare and a ducking in the water below. Mr. Alfred Everett was at the wheel and says he lost control by the machine skidding. The bridge rail was broken and all went over board. This bridge spans the Chester river between Millington and "Sandtown."

HORSE THIEF CAUGHT

THE Delaware detectives arrived in Chestertown Tuesday night and arrested a man named Moore who was found in Double Creek with a horse, carriage blanket, etc., stolen from near Dover a few nights ago.

This man Moore is also known as Howard Waters and the following interesting dispatch from Dover was received:

"Having suffered a fire which practically destroyed all of his harness, farming improvements as well as two horses; having lost a valuable stallion valued at $600 some three weeks ago, Farmer John T. Kemp, living on the Harry McDaniel Farm, near Little Creek, one of the best known farmers in Kent county, awoke Tuesday morning to find another valuable horse, together with a new york carriage, a full set of harness, a fly net, five blankets and other carriage equipment, stolen from his stable and barns between 10 o'clock at night and 4 o'clock in the morning. With the stolen goods had also disappeared a colored farm hand, Howard Waters, who had been employed by Mr. Kemp since March last. Waters is suspected by Mr. Kemp and that the thief was prepared for a long drive, with possible stops in dense woods on his route is evidenced by the theft of a quantity of feed for the horse and edibles for himself. The bread box was robbed of all the bread the family had in store besides several jars of preserves."

He is safely in Dover jail and the team is in Chestertown jail stable.

The heirs of the late Wm. T. Crow have sold their Whaland-Wickes farm to W. Frank Jarrell, price private. This farm joins the Jarrell lands and Mr. Jarrell informs us it will be operated in connection with their dairies, hence it will not be for rent.

THE Kent County Land Co. has sold the John A. Sparks place, near Crumpton to Dr. Gilbert T. Smith, of Connecticut. The doctor will erect a handsome home and fix up the place in fine style.

THE Chestertown Library, thru the energy of the ladies and liberality of certain citizens, has been made FREE. Beginning June 1 this library will be open to the public on Tuesdays and Saturdays from 10 A M until 1 P. M and from 6 until 8 P M. on Saturdays. Miss Josephine Wheatley has been elected librarian and will make a very efficient official.
