of Broad Neck.

We place at the mast head today the Democratic Organization ticket in Kent county to be carried thru successfully at the primaries to be held sometime in September. This is one of the best tickets ever placed before the people for their commendation and support. It is not a Boss made ticket but each name was presented and urged by a united sentiment of scores of Democrats interested in good government. Not a man was asked to step up to the Boss' desk and sign a "slavery act," but each one is a free citizen, intelligent and a true Democrat.

The fitness of each man for the office to which he aspires is specially eminent and worthy of special mention and congratulation.

The issue before us is Bossism versus Freedom and we shall discuss this question in succeeding issues of the NEWS. The Organization stands for *freedom*, while the antis are against the same and bow the knee and do the bidding of a Boss. The Organization has leaders, but no boss nor bosses—the people rule in it.

RULES JOB IS NOT "OFFICE"

In an opinion handed down Wednesday by the Maryland Court of Appeals it was decided that the State Tax Commission exceeded its authority under the act creating it in appointing two attorneys—State Senators William W. Beck and E. M. Hammond. The commission, in the words of the act, was authorized to appoint "an attorney" and the court held that this did not give authority to appoint two.

On the more important question as to whether Senators Beck and Hammond were eligible under the constitutional provision that makes a member of the Legislature ineligible to appointment to any office created by that Legislature the Court held that the position of attorney to the commission was not an "office," and that therefore either Beck or Hammond was eligible.

Under this decision the Commission may appoint either of the Senators as its attorney at such a salary that he may employ the other as his assistant—if not officially, then personally.

The opinion of the Court of Appeals was prepared by Judge John R. Pattison and the conclusions reached were unanimous.

The court says that the most general distinction of a public office is that it embraces the performance by the incumbent of a public function delegated to him as a part of the sovereignty of the State. An attorney appointed as counsel is simply an agent or employe and not a holder of an "office."

PROPOSITION WITH MERIT

The Federated Club, of Chestertown, being impressed with the needs of a lung-motor in this section, has appointed Mrs. Charles W. Whaland, wife of Dr. Whaland, to solicit contributions for the purchase of same. A lungmotor is an automatic device for resuscitation. It has become a necessity in all hospital work and not a convenience. Sanitation, cleanliness and devices to save human life should be more to humanity than beautifying. This machine, if it had been in town, would probably have saved life in recent drowning accidents off Chestertown. It is useful in cases of asphyxiation, suffocation and the like. It is true these cases happen but seldom, but it it is then most needful and Chestertown should have one of these devices. The place for its keeping might be in a drug store or hotel. The Ladies' Club have already started the fund with $25, and it is hoped that the lodges and different organizations will add to this amount.

THE regular bi-monthly meeting of the Woman's Federated Club will be held next Wednesday, May 19th, in the "Rest Room," at 3 p. m. "An Evening with the Victrola" will be held next Friday evening, May 21, in the "Rest Room," at 8 p. m. An admission of 10 cents will be charged to all non-club members. Proceeds to be devoted to running expenses of the "Rest Room." During the first month of its existence about 50 out-of-town people registered and the committee in charge feel there is real need for a room of this character and that the country people appreciate their efforts. Come and aid the cause.

DECORATION DAY RACES on Monday, May, 31, are being arranged for at Chestertown race track. A big automobile parade will be held in the morning at 10 o'clock when prizes will be offered for autos and best teams. There are now 35 horses at Radcliffe track and more to come, F. H. Harrison, of Pocomoke City has arrived with four horses from Baltimore, and two from Virginia. The Greensboro Brass Band will furnish music.

ST. JOHN'S COLLEGE and Washington will play a championship game of baseball at Chestertown next Saturday, May 22. This will likely be a great game. Don't miss it.

SALESMAN WANTED.

One who knows the county he lives in. To such a one I can offer a proposition that should net him $1,000 to $1 500 a year. Every farmer now has some on his place and is buying more, Address
GEORGE J. MULLER,
my15 3412 Alto Ave., Baltimore, Md.

Maxwell
Wins Test Over 40 Cars

Result of the great Yale University Sheffield Scientific School Test. Of the forty automobiles tested at the famous Sheffield Scientific School laboratory the Maxwell stands first in economy of Gasoline consumption.

MECHANICAL ENGINEERING DEPARTMENT
SHEFFIELD SCIENTIFIC SCHOOL
YALE UNIVERSITY

NEW HAVEN, CONNECTICUT
May 1st 1915.

The Biever Motor Car Company,
1079 Chapel Street
New Haven, Conn.
Gentlemen:-

I am enclosing report of test of your Maxwell automobile recently made in our laboratory.

I should like to add the following comments;

1. RELIABILITY OF TEST.

A preliminary test was made on April 19th, using a new car which was rather stiff. The showing was so good that we decided to make a second test. This was made on April 30th, using same car. On this test, the car showed less stiffness and the performance was better than on the first car. The second test was supervised by our most careful experts, and the results, I believe to be perfectly reliable.

2. MILEAGE.

The efficiency of the Maxwell automobile as indicated by the number of miles on a level road, is exceptionally high. This mileage record is better than that of any one of forty automobiles tested in our laboratory to date.

3. MOTOR PERFORMANCE.

The efficiency of the motor and carburetor as indicated by the pounds of gasoline used per hour per horse-power at rear tires, is exceedingly good, and indicates very perfect carburetor action over the whole range of speed and load. This record like that on mileage per gallon, is the best one that we have had.

Very truly yours,
E. H. Lockwood
ASSISTANT PROFESSOR MECHANICAL ENGINEERING.

The table furnished by the Yale Sheffield Scientific School

Power and Fuel test made on high gear of Maxwell stock Touring Car on comparatively level roads by Professors E. H. Lockwood and T. Q. Boyer, Sheffield Scientific School, Yale University.

1.	Name of car	MAXWELL, 1915 Model "25"
2.	Owner of car	Biever Motor Car Co., New Haven
3.	Date of test	April 30th, 1915
4.	Weight of car with driver	2,000 lbs.
5.	Wind resisting area	20 sq. ft.
6.	Rolling resistance, declutched, high	36 lbs.
7.	Rear ratio, direct, measured	3.55 to 1
