Why we Welcome Small Accounts

¶ Because we are building for next year, and the next, and all the years to come. The carpenter of to-day may be the big contractor of to-morrow. A clerk may be proprietor next week.

¶ With an eye to our depositors' future and our own, we welcome small accounts —as well as large ones—AT FOUR PER CENT.

On Commercial Fertilizers By The Use Of

CRIMSON CLOVER

Read Farmers Bulletin No. 579 on Crimson Clover. It's Free. Address U. S. Dept. of Agriculture, Washington, D. C.

A bushel of Crimson Clover Seed sown on four acres of ground will increase the succeeding yield of Corn or Cotton about the same amount as would a ton of complete fertilizer applied at the rate of 500 lbs. per acre. A good stand of Crimson Clover turned under will ordinarily double the yield of the crops which follow. The physical condition of the soil is also materially benefited. The Sandy Soils are increased in Humus and Nitrogen Contents. The Stiff, heavy clay soils are rendered more open and friable.

Crimson Clover makes an excellent grazing crop, hay, ensilage and pasture for all classes of live stock. Milch cows make considerably more milk when pastured on Crimson Clover. It is also valuable as a honey plant, furnishing an abundant supply of nectar in the spring.

Crimson Clover is valuable as a Winter Cover crop. It is especially valuable in Orchards where it is generally plowed under as a green manure crop. The plants retain for the use of the trees the following season much of the plant food which would otherwise leach out of the ground during the Winter and early Spring. A good stand of Crimson Clover not only reduces the erosion and the gullying of the fields, but on sandy fields, the blowing of the soil by the wind is greatly lessened. The Plants also serve to hold the snow to a greater extent than if the field was left bare during the Winter. More and more each year farmers are realizing the importance and great value of Crimson Clover.

Bolgiano's "Gold" Brand Standard Crimson Clover is exceptionally fine. It has large well matured plump bright golden berries. If you want the best Field Seeds of any kind always insist on getting Bolgiano's "Gold" Brand Standard Clovers and Grasses.

Annie Graves.

In the Circuit Court for Kent County In Equity. No. 1916

THE object of the Bill of Complaint is to procure a decree for divorce a vinculo matrimonii.

The Bill states:

1. That in or about the year nineteen hundred and one John Graves was married to his wife Annie Graves, with whom he resided in Kent county until the year nineteen hundred and nine.

2. That though the conduct of your orator towards his wife the said Annie Graves has always been kind, affectionate and above reproach, the said Annie Graves, without any just cause or reason abandoned and deserted him, and has declared her intention to live with him no longer, and that such abandonment has continued for at least three years, and is deliberate and final, and the separation of the parties beyond any reasonable expectation of a reconciliation.

3. That your Orator and said defendant, Annie Graves have had no children born to them from said marriage.

It is thereupon, this 29th day of May, 1915, ordered by the Circuit Court of Kent County in Equity, that the plaintiff by causing a copy of this order to be inserted in some newspaper published in said Kent County, once in each of four successive weeks before the 5th day of July next, giving notice to the said non-resident defendant, Annie Graves and warning her to appear in this Court in person or by Solicitor on or before the 22nd day of July next, to show cause, if any she has, why a decree ought not to be passed as prayed.
