PRINCE ALBERT

the national joy smoke

is such good tobacco you feel like you could just *eat the smoke!*

Yes, sir, P. A. puts a razor edge on your smoke-appetite-division that's nobby enough to be photographed! No other pipe and cigarette tobacco can be like Prince Albert, because *no other tobacco can be made like Prince Albert.* The patented process fixes that—and removes the tongue-bite and throat parch! Let *that* digest!

The toppy red bag, 5c

And that line of conversation is 24 kt., whether you play P. A. in your old jimmy pipe or roll it into a makin's cigarette. For you can put your little old blue-pencil O. K. right here that Prince Albert is a regular double-header for a single admission—as joy'us to your tongue and taste one way as the other!

Will the "rollers" kindly step forward for a spell and get some of this listen into their systems? Because Prince Albert certain and sure jams more joy into a makin's paper than ever before was figured up on two hands!

In the plain language of the hills, you can't any more resist such makin's tobacco than a bullfrog can pass up a piece of red flannel! Because P. A. hands to you *everything any cigarette roller ever dreamed-out*—rare flavor, and aroma, and mildness, and body; absolutely the best bet—the best smoke you or any other man ever did roll and put the fire to! Men, we tell you to wise up.

P. A. is crimp cut and stays put—which means rolling P. A. is as easy as falling off a log. And it's good to remember P. A. is put up in the toppy red bag especially for you "rollers." Sells for the price of a jitney ride, 5c.

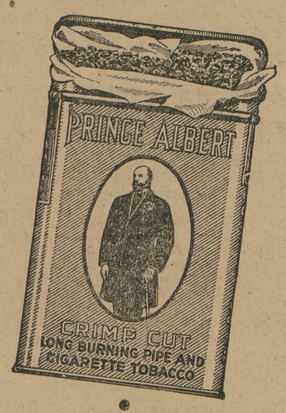

Now, will the "pipers" kindly open both ears?

Here's tobacco that has made it possible for *three* men to smoke pipes where *one* smoked before!

Any way you hook it up, Prince Albert is *tobacco insurance!* Yes, sir, it guarantees your future as well as your *present* smokings! And just makes your tongue so jimmy pipe joy'us that your smoke appetite grows whopping big. You men who "dassn't," we say you go to P. A., *natural-like!* Because there isn't a bite in a barrel of this national joy smoke.

Unlimber your old jimmy pipe! Dig it out of the dark corner, jam it brimful of P. A. And make fire with a match! Me-o-my!

You get acquainted with Prince Albert in the toppy red bag, 5c; or tidy red tin, 10c, but for the double-back-action-joy, you buy a crystal-glass pound humidor. And then you're set! You see, it has the sponge-moistener top and keeps P. A. at the highest top-notch point of perfection. Prince Albert is also sold in pound and half-pound tin humidors.

The tidy red tin, 10c

FAIRNESS TO BALTIMORE CITY.

Baltimore City is the Metropolis of Maryland, a city that every resident of this State feels proud of, and one that everyone wishes continued growth and prosperity.

While this is true in the broadest possible sense, yet the Counties are unwilling to give unto Baltimore the control of the State of Maryland. When the Constitution of this state was framed and adopted, care was taken that Baltimore would not be able to control the rest of the state, by limiting the number of Repesentatives in the legislature. Owing to the outcry that Baltimore made about not being treated right, as her growth had been so great her representation was not in proportion to her importance, a constitutional amendment was adopted increasing the number of Senators and members of the Lower House.

This gives Baltimore much more influence in State Legislature than she once had, but still keeps the control of the state in the hands of the Counties.

Baltimore is, and ever has been governed by a "political machine" controlled or dominated by one individual. The giving of Baltimore cantrol of the State would mean that the State would have to bow down in all things to this "machine" control.

In the Counties even when a County is influenced by some one man, there are as many leaders as there are Counties and only those measures can be passed that meets with the approval of these counties.

Baltimore City citizens themselves would not want to have the State turned over to the tender mercies of the "Baltimore machine." As a matter of fact, well informed men in the State know full well that Baltimore has had to ask the Counties over and over to protect them from avarice and greed of their own representatives.

Fair treatment to Baltimore City is the wish of the Counties, but that they should do anything that would mean Baltimore's supremacy in State affairs can not be expected.

Even if Mahon-Loden-Preston el al can do what they have assumed to do—turn over the great City of Baltimore to their political favorite, the rest of the State is on the watch and will see to it that the Batimore Machine candidate does not ride over them rough shod.

Hon. David J. Lewis who is known from one end of the United States to to the other. Who is big enough not to belong alone to Maryland but to the Nation it self, in a speech delivered in favor of Mr. Harrington's candidacy puts the issue of County and Baltimore in plain understandable language.

The Father of the Parcel Post does not mince words as will be seen from the following extract of his speech in Frederick County last week.

The City and The Counties.

"In the contest between Harrington and Lee a principle is really presented of great importance to the State. It is the old one that we thought was firmly settled in the Constititution, which divided the powers of our state government as between its one great city and counties. Nevertheless, that question is now raised again as a matter of State politics. It is, plainly stated, shall the 23 counties control the State and the city of Baltimore if need be, or shall the single city of Baltimore control the 23 counties and the state? Now, some people may think it hard enough that the 23 counties should control the city, but it is absolutely intolerable that this one city should control the 23 counties. Why? Because such a control would not finally be good for either the city or counties. The city has but one voice, one conscience, one power speaking. The counties have 23. The one, the modern city under autocratic control, is much more likely to get wrong and stay wrong than are 23 distinct minds and influnces which emanate from all the counties of our state. Unquestionably the success of Harrington would insure us against the grave danger of city domination of the counties. His success would not mean the subversion of our constitutional structure and guarantes while that of his opponent might launch us into a city-bossed State
