LITTLE GIRL BURNED

Mary, the 4-year-old daughter of Mr. and Mrs. John Shauber, of near Chestertown, was fatally burned on Tuesday at the home of her parents. It was after supper that Mary found the matches and going outside the kitchen door began to play with them. She finally ignited her clothing and when found she was unconscious. Mrs. Shauber was sick up-stairs, the cook had gone home. Mr. Schauber was at the barn and the sister in charge had left Mary to attend to her mother when the accident occured.

Dr. Graham and Rev. Father Earner arrived quickly and everything possible was done for the little sufferer. Funeral was held Friday morning from Sacred Heart Church at 9 o'clock, Rev. Father Earner officiating; interment at Church Hill Catholic Cemetery. J. E. Ferguson undertaker.

GOVERNOR GRANTS REPRIEVE TO DAVIS

Evidence Shows Insanity—Goldsborough Told Wife Slayer's Mind Weak Before, During And After Crime.

The sentence to hang Benjamin E. Davis, wife murderer, at Towson, yesterday was not carried out. And there developed unexpectedly a strong probability that the sentence will not be carried out at any time.

Davis' execution has been stayed for two weeks by a reprieve which Governor Goldsborough signed in the Executive mansion at Annapolis Thursday morning.

The Governor announced that considerable evidence has been brought before him to show that Davis may be insane now, that he was insane before he murdered his wife and that he was insane at the time he took her life.

"I have signed a reprieve staying the Execution of Davis for 14 days," the Governor said. "Strong testimony has been brought before me to show that Davis is a victim of a mental disorder, and that he was insane some time before he killed his wife."

"Moreover," the Governor continued, "it has been brought to my attention by reliable witnesses that queer actions and conduct have been often noticed in Davis for quite a long time.

"Therefore, I have asked the State Lunacy Commission to inquire into his case and to report to me within 14 days.

"Not until after I have received this report will I make up my mind as to whether I shall commute his sentence to life imprisonment."

THE REGISTERED VOTE

Total Vote in County Increased 179—1478 Colored Voters—2938 White Voters—Only 267 Affiliated White Republicans.

Registration was completed last Tuesday with revision day, and the figures for Kent county, by precincts and affiliation, are given as officially obtained from Mr. W. W. Baldwin, the efficient clerk to the Election Supervisors. They will be found interesting in a number of ways, one of these being in the increase over last year of affiliated Democrats of 19 over the Republicans. The vote has increased in the county 139 over last year. The Progressive and Prohibition parties do not seem to be growing very fast; in fact, they each lost 2 votes, voters having learned that they can express their sentiments just as well through one of the old parties and also exert more influence.

If the voters cast their ballots according to affiliation in this election—and there is no reason why they should not—Kent county should give Hon. Emerson C. Harrington and the other 16 candidates at least 800 majority this November. The Democrats have 860 majority over the Republicans on affiliation, with 72 Independents. These latter certainly cannot do better than to vote the Democratic ticket.

The registered vote in 1914 was 2530 Democrats, 1689 Republicans; colored 1433, white 2844. The 267 white Republicans are registered as follows: First district, 30; second, 42; third, 36; fourth, 46; fifth, 69; sixth, 16; seventh, 58.

There are only 267 white Republicans in Kent, according to the affiliated vote, and 1475 colored. There are said to be 3 colored who affiliated as Democrats.

The figures for the new registration of 1915 are given in this table.

THE corn estimate contest, which P. M. Brooks has been advertising in the county paper, seems to have created considerable interest. Estimates from Queen Annes and all over Kent, and also as far as Baltimore have been received. He would be greatly pleased if more of the farmers would figure on this shrinkage and let him have their estimates within the next week or 10 days as he hopes to shell this corn within the next 10 days or two weeks. The results of this test will be published for the benefit of those storing cob corn.

There are 17 marks required on the Democratic ticket. Mark in the square opposite the word DEMOCRATIC.

Mrs. Harriet Brigham the mother of Mrs. R. P. Nichols died at the M. E. Parsonage at Still Pond on last Friday night, aged 70 years, of cerosis of the arteries. Funeral services were held at the home on Sunday afternoon at 2 o'clock, Rev. S. S. Hepburn officiating, and remains were taken to Amhurst, Mass., for interment on the 4.30 train Sunday afternoon. The bearers were Taylor Baxter, F. Baynard Harper, John N. Bennett, Samuel G. Rosberry, William Ford and Wilmer Ford. Undertaker W. H. Krusen had charge of the funeral arrangements.

Mrs. Clarence Beck, widow of the late Clarence Beck, of St. Louis, died at her residence in Baltimore last week. Mrs. Beck before her marriage was Miss Vickers, of Baltimore, and Mr. Beck was a brother of Mr. George Beck, of Kent county.

The funeral of Mrs. Minnie Maslin took place in Christ M. P. Church where she had been a life long member Sunday afternoon and was largely attended. Dr. W. R. Graham officiated and delivered an impressive eulogy. Interment took place in Chester cemetery. The pall bearers were her two brothers, Wm. B. and Stonewall Jackson Coleman, Wm. A. and George Burk, James Coleman and William Downey.

Francis Philena Usilton Reed, widow of the late George R. Reed, passed away at the home of her son, Jos. B. Reed, Lebanon, Del, on Wednesday, October 13, 1915, aged 87 years and 2 weeks. She was formerly the daughter of Francis and Hannah Rebecca (Lamb) Usilton, old and former pioneers of Kent county. She was interred in Chester cemetery yesterday at 10.30 a. m.

ALARMED BY ANTHRAX

The fact that our neighbors across the river have been bothered with anthrax among their stock makes the following item particularly interesting and should make us more careful. The disease seems to be about over now, unless a hog, which was taken sick at Mr. Parker's has another case.

There have been no fresh outbreaks within ten days. A dispatch from New York, Oct. 11, says: Ultra-Violet rays were resorted to this afternoon in an effort to save the life of George F. Stackpole, an elderly lawyer and justice of the peace, of Riverhead, L. I., now at death's door in Bellevue Hospital from anthrax.

Mr. Stackpole's illness, the third from anthrax within three weeks, resulted in the Health Department issuing a warning today notifying persons attacked by rapidly spreading boils to hasten to a physician. The Bureau of Animal Industry in Washington arranged to send a special anthrax antitoxin for use in Stackpole's case.

A later dispatch says the patient may recover.

From Riverhead came a dispatch to day which furnishes one theory of the manner in which the victim may have become infected. Anthrax is a disease which is sometimes found among cattle, but is extremely rare among human beings. Outside of Mr. Stackpole's office in the Riverhead Saving Bank Building is a hitching post, which is used by the farmers of the adjacent territory.

During the dull moments of the day it was the custom of Mr. Stackpole to lean against the hitching post and regale an admiring audience with amusing stories of his judicial experiences.

There are 17 marks required on the Democratic ticket. Mark in the square opposite the word DEMOCRATIC.

EASTERN SHORE LEADS

The NEWS last week published an account of a Guernsey cow in the Delaware College herd which has been heralded as a world-wide prize winner. She produced in 365 consecutive days 13,831 pounds of milk and 588.22 pounds of butter fat.

Dr. G. Allen Jarman, veterinarian, says there are four cows in H. H. Pearson, Jr's herd of Gurnseys at Rich Neck Farm, Claiborne, Md., which surpass the above record and hold the record for same. Francis 18th has a daughter which gave 16,449.9 pounds of milk in a year which equals 734 pounds of butter fat and 856 pounds! Mr. Pearson owns a beautiful herd of cattle and takes great pride in them. They are kept in healthy stables and fed on the best food.
