M. This bill, or a similar one, passed the House by a large majority at the last session of the Legislature, but was defeated in the committee of the Senate. This "committee of 100" believes that financial aid should be extended by the State of Maryland, to widow mothers for the care, support and education of their dependent children, and that it should be given, not as alms, or as charity in any form, but in such manner as will dignify family life, enabling the family thus to maintain its self-respect and the respect of the community in which it lives; such aid to be granted under wise supervision and restriction. The Woman's Federated Club, through whom Miss Beveridge comes, urges tho men and women of our community to attend this meeting and hear Miss Beveridge, who is a most pleasing speaker. It is certainly a measure in which all must be interested.
