M. P. CONFERENCE

Rev. John S. Bowers Elected President for Fifth Time—Other Church News.

The 88th annual session of the Maryland M. P. Conference opened at Lafayette Avenue M. P Church last Wednesday morning. 183 ministers and 118 lay delegates were present. Rev. Dr. John S Bowers presided over the sessions. That veteran, Rev. William M. Staver, opened the conference with prayer. At the election for President Dr. Bowers received 142 of the 194 votes cast. Others receiving votes for President were Dr. W. R. Graham, of Chestertown; Rev. J. M. Gill, Rev. L. F. Warner, of Salisbury; Rev. J. W. Kirk and Rev. G. W. Hadaway, of Baltimore.

Dr. Bowers made a splendid report as to the condition of all the churches. The conference is holding no night sessions, thus giving the members opportunity to attend the Billy Sunday revival meetings.

Rev. Dr. Tagg has decided to resign as editor of the Methodist Protestant.

Mr. Wm. A. Wheatley, Jr., is attending the conference as a delegate from Federalsburg. Mr. George R. Rasin is attending as delegate from Kennedyville. Mr. Samuel Vannort is a constant attendant as delegate from St. James, and Mr. Samuel Burgess represents Wesley Chapel. Mr. Fred. G. Usilton is attending as delegate from Chestertown.

The question of a unification of the three Methodisms was brought bfore the Conference in a stirring address by Rev. Dr. John F. Goucher of the Methodist Episcopal Church. Dr. Goucher is regarded as one of the leading spirits in the three Methodist church reuniting in this country and his remarks were applauded.

J. Bibb Mills, attorney for the Maryland Antisaloon League, in an address before the Conference declared that there was a good chance to put Baltimore in the dry column at the next election.

ON BAY-BOAT PLAN

The bay-boat crisis having been postponed, but not averted, by the suspension of the Interstate Commerce Commission's order compelling the Pennsylvannia Railroad to cease operating its Eastern Shore boat lines, a way of meeting this crsis, when it finally arrives, must be devised. The problem which the Baltimore business interests were not able to solve in a few weeks still awaits solution and if nothing is done towards solving it the last condition of the city's commerical interest may be as bad as the first.

The Board of Trade, which is a composite of Baltimore's important commercial organizations, is now taking the preliminary steps looking to the development of a plan to meet and overcome the difficulty when the city shall again be face to face with it.

The first step is to get the commercial interests of the city working as a single unit with the single objective of devising a plan to meet the impending situation. The plan itself—the means to the end—has not yet been doveloped; but the end is perfectly plain—to obviate the possibility of Baltimore's again facing the embarrassment from which it has recently escaped.

EXPERTS in the department of agriculture at Washington, are trying to find some means to make up for the loss caused by the shortage of the supply of potash and other chemicals imported from Germany and used in making fertilizers. Farmers are somewhat alarmed by the shortage in fertilizers and not a few of them in this part of the country believe that the failure to get good fertilizers means a serious falling off in the crops of the year. The agricultural specialists say that garbage is one of the richest sources of fertilizing materials, and they point out that if the 199 cities with a population larger than 30,000 would make proper use of the garbage the yield would be worth from $4,780,000 to $7,000,000 annually and would materially assist in solving the fertilizer problem.
