DEMOCRATIC TICKET

For United States Senator:
DAVID J. LEWIS,
Of Allegany.

For House of Representatives:
JESSE D. PRICE,
Of Wicomico.

J. FRANK TURNER, one of Easton's foremost citizens, died Monday.

J. B. HANNA, a Republican office-holder and prominent politician, died in Baltimore Tuesday of typhoid fever.

THE new police justice for Chestertown is proving himself well-fitted for the job.

THE Eastern Shore Steamship and Development Company, which has been operating a steamer service from Annapolis to points in Talbot county, on the Eastern Shore, has gone out of business.

THE Goldsborough forces were badly beaten in the Republican Convention held in Baltimore Tuesday. John D. Urie, Esq., was elected one of the district delegates to the National Convention which meets in Chicago, June 7th.

IN the case of a school teacher of Dorchester county, who whipped a pupil, suit being entered by the latter's parents, Judge Jones gave a decision in favor of the teacher and recommended the use of the rod when necessary.

KENT county is certainly on the map—in politics at least. Wm. W. Beck Esq., has been named as delegate to National Democratic convention in St. Louis and John D. Urie, Esq., as delegate to National Republican convention in Chicago.

MOTHER'S DAY

Sunday, May 14, will be Mother's Day—the second Sunday in May. The emblem of the day is the white carnation, and it is the hope of the Mother's Day Association that it will be worn by every one as a tribute of respect, not only for his own mother, but also for all the gentle and noble motherhood of the land. And while you are wearing it, do not forget that the greatest tribute to Mother is to pay due respect to all pure womanhood.

IT has always been a mystery to us why the farmers cannot get from the milk stations a uniform price for their milk. The dealers receive from January until December about 32 cents per gallon for the milk and why can't they pay a fixed price for at least six or eight months to the farmer? There is now being formed in Kent and in other counties Dairymen's Associations and it is hoped they will take up this question. The price for May has dropped to $1.40, or about 12 cents per gallon.

IN compliance with the request of Attorney General Gregory, the Federal Board of Trade is to investigate the proposed increase in the price of coal as announced by the operators. This advance, it is declared, is made necessary by the concessions which the operators granted the miners. When the demands of the miners were made it was confidently asserted that they would be allowed. The operators were not long in concluding that for them it would be better to accept the proposals of the miners and "pass along" the extra expense to the consumers of coal. This is what has been done.

IT is certainly a pleasure to place before the NEWS readers the name of Hon. David J. Lewis as the nominee of the Democratic party for United States Senator. The man who has climbed from obscure beginnings to the prominence he has already attained, will do his state honor in the United States Senate; the man who has three times carried Republican Western Maryland for the Democratic party is a formidable vote getter; and the statesman who has written on our statute books so many healthy laws for the betterment of humanity is a splendid asset for both his State and nation. His easy manner and winning words make him warm friends wherever he is thrown. He is the farmer's friend and the workingman's champion. He is a safe winner.

STATISTICS show that of every dollar paid for food in this country, 45 cents goes to the farmer, 15 cents to legitimate marketing costs, and 40 cents to the speculative middlemen. If these speculative middlemen could be removed the prices of farm products to the consumer would be lowered, and the farmer would also get larger returns. But in attempting to adjust the matter the farmers are not without blame. Many persons who have dealt directly with some farmers have discovered that the latter want city prices from the consumer and wish to take to themselves the entire advantage of direct dealing. What ordinarily goes to the speculative middleman the farmer wants from his direct customers. For this and other reasons direct buying has not been very successful.—Wilmington Morning News.

Feed It Again---Keep It Growing

Your Growing Crops, Like a Growing Child, Need Feeding Often

Now that your growing crops are above ground, and going good, give them a helping hand, toward maturity, by a second and even a third application of fertilizer. It will not only increase the yield and improve the quality, but will hasten their maturity.

With corn and other crops past experience has shown this method of cultivation is not only expedient but necessary to get the best yields possible. The plant food placed in the soil previous to planting will be largely consumed by the plant by June. It is time then to feed them again and help them grow. It is not too late now to overcome a bad start by a second and then a third application of fertilizer.
