Cadillac Eight

Following the Cadillac Eight came multiple-cylinder cars by the score.

And it is only natural that they should follow the Cadillac in pointing out the advantages of multiple-cylinder construction.

But nothing has developed to discredit in the slightest degree the statement that the luxuries of motoring which distinguish the Cadillac are obtainable only in the Cadillac.

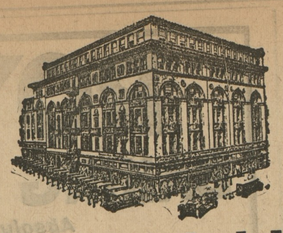

Cadillac service is something definite and really valuable. By our free inspection system your car is examined and minor adjustments made once each month.

The service station in Easton is under the direction of Mr. Warner who we consider one of the most competent service men in the business.

When buying a car, think what such service will mean to you.

The price of the standard 7-passenger car is $2080.

THE STORE THAT GETS THE NEW STYLES FIRST

When you come to Baltimore to shop—as you probably do at intervals during the year—you will naturally feel safest in the store whose stocks are always fresh.

It is a matter of pride with us——and a matter of principle as well—not to allow old-style or shopworn merchandise to accumulate.

Periodically, we hold special sales in which this merchandise is disposed of at ridiculously low prices. We would rather give it away than permit it to remain in stock.
As a result, whatever is shown to you as new at Hochschild, Kohn & Co's is new.

The woman who does not keep in close touch with the styles can buy here with perfect safety—and our people will be glad to give helpful advice and assistance to anyone who is in doubt as to what to choose.

STATE TAXES DUE JULY 1

Interest Will Be Charged After Sep. 1—No Discount To Be Allowed.

Stricter laws affecting the collection of state taxes were enacted by the last legislature. The discount feature which appealed to many taxpayers was abolished entirely. Taxes due the State will in the future be payable on July 1 and after September 1 interest will be charged. After Jan. 1 of the year following the County Treasurer shall proceed to collect the State taxes as provided for by law according to a letter from State Comptroller McMullen which follows:

April 27, 1916.

To the Board of County Commissioners, Chestertown, Md:

Gentlemen:

This is to notify you that no discount will be allowed for the prompt payment of state taxes levied for the year 1916

Chapter 630 of the Acts of 1916 provides that state taxes are due and payable on the first day of July succeeding the levy, and if not paid on or before September first, interest shall be charged from said first day of September. Said state taxes shall be in arrears on and after the first day of January succeeding the date of the levy, and it shall be the duty of Collectors, Treasurers and other officers who may be charged with the collection of the same immediately thereafter to proceed to collect said taxes in accordance with the provisions of law for the collection of delinquent taxes. It shall also be the duty of the Collectors or County Treasurer or other officers collecting said taxes to make monthly returns and remittance to the Comptroller of the amount thereof collected from time to time.

Yours truly,
HUGH A. McMULLEN,
Comptroller.

Furniture To Be Taxed.

The legislature repealed the law exempting tax on furniture as enacted by the Assembly of 1914. The nominal exemption of $100 still holds, however.

Home Lighting & Cooking Plant.—Mr. G. E. Williams representing the oxweld Acetylene Co., of Newark, N. J., and Chicago, Ill., has an attractive add in this issue.

He has been on the job this week looking after the installing of a number of Pilot Lighting & Cooking Systems in Kent and Queen Anne counties. Among the fortunate ones in Kent are: W. Clarence Crew, Betterton, who expresses himself as being delighted, his only regret is that he did not put it in sooner. The beautiful home of Mrs. Sallie B. Parrott, Still Pond is now lighted with this modern convenience. She also has a large gas range which will insure her a nice cool kitchen this summer, and which will make cooking a pleasure.

KENT NEWS, the people's favorite, $1 per year.

The Ross Eight Cylinder Seven Passenger Touring Car
$1350.

Do you realize what it means to own an eight-cylinder car.

You wouldn't buy an old "one-lunger" would you? Of course not, because they were long ago superseded by cars of four or six cylinders. And these same four and six cylinder cars are being superseded by eight-cylinder V-type cars—the pinnacle of perfection in motor car construction. Two years ago there was only one eight-cylinder car on the market. Today more than forty manufacturers are building multiple-cylinder cars.

Now is the time to break away from the older types and buy a really modern automobile.

Do you realize what it means to drive an eight-cylinder car?

You will never know what it means to soar above the woods and fields in an aeroplane by reading of another man's experience. Neither can we describe the smooth buoyancy of an eight-cylinder car as it seems to literally float over the road, up hill and down dale without pause or effort. The experience is unparalleled, because it is something absolutely new to you.

By throttling the engine down, the car can be made to crawl at a snail's pace without laboring or vibration. But step on the accelerator—and the engine is a thing alive. Like the flight of a bird, unerring and noislessly the car literally rushes to forty, fifty miles per hour.

You must ride to understand. Call us on the phone and make an appointment for a demonstration. It will put you under no obligation whatever.
