The European War

has played havoc with the dyes and woolens of the whole country.

There are more "cotton Mixtures" now and cheap "shoddy" fabrics offered everywhere this season than ever before in clothing history. The market is flooded with this sort of merchandise.

The firm of Bordley & Sons, "taking time by the forelock," realized that unless a stock of clean merchandise was bought early, it would have nothing to offer its patrons.

The result is that we have in our store today the same inimitable values in Serges and Worsteds, that we could not duplicate at any price now, and we are offering them to you at the same regular prices.

The garments we can positively guarantee as "all wool" will start at $13.50.

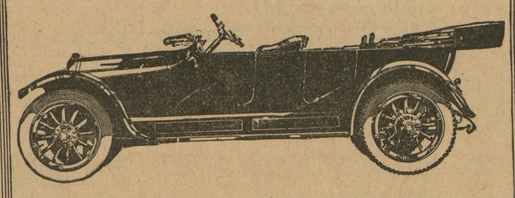

Does it not mean something to you to have this protection when made-to-measure houses are having no end of trouble in getting satisfactory material for their customers?

We Are Prepared

Our lines are full and complete now, and we will be glad to serve you. Come see us.
