THE STORE THAT SERVES YOU BEST

The Hochschild, Kohn & Co. Store was founded in 1897. It began with a plain announcement of its policy and its intentions.

A clear contract was made — is still made, and will always be made—with every customer. This is the contract—it is printed on the back of every sales-check:

Our System

Reliable goods only, at uniformly right prices. For all articles returned, if uninjured, and within reasonable time, we shall willingly refund money.

Baltimore's Best Store is the store of progress. It is not ideal, but it is striving to be.

Its aim is to please—to satisfy; and it never loses sight of the mark. It is the accepted and avowed shopping place of a great many people, in Baltimore, throughout Maryland, and in almost every other state in the Union.

NO MORE FREE SEED

Practically every voter in Kent county has at some time in his majority received a batch of government seeds as a gift from a United States Senator or Congressman from the First District. He either gave them to the children to plant in their "play-garden" or planted them with high hopes and devout thanks to his kind-hearted representative in Congress only to be disappointed later as he failed to get anything approaching a satisfactory yield.

By vote of 33 to 21, the Senate last Monday agreed to the committee amendment striking the provision for the distribution of free seeds from the agricultural bill. Senator Kenyon, of Iowa, led the attack on the provision of the House bill for this distribution of seeds. He characterized it as "congressional graft," and pointed out that the Department of Agriculture was opposed to the continuation of the plan.

Senator Kenyon said that in the last four years this free distribution of the seeds has cost the government $1,110,633 for the seeds alone, and to this must be added postage and time of employes of the Government necessary to distribute the seeds.

He said that there was an idea lurking in the minds of Congressmen that these free seeds made them solid with the farmers' wives and helped them at election times. He quoted from a letter received by a member of Congress from a constituent to whom seed had been sent. This constituent asked for more beans, saying that his wife had cooked the last lot and that the soup was fine.

HIGH PRICES PREVAIL IN MEXICO

Eggs $10 Each; Lard $15 per lb.; and Bread $10 per Loaf.

Kent residents may think that the cost of living is getting rather steep, yet it is not comparable with prices prevailing in war-ridden Mexico.

Mr. O M. Purnell, of Snow Hill has recently heard from his brother, Dr. G. E. Purnell, of Guadulajara, Mex., where he is treasurer of a large mining company, giving some interesting sidelights on the situation in the southern republic

Dr. Purnell has no intention of leaving Mexico, tho his brother, John W. Purnell, left for this country some time ago, and is practicing his profession in Norristown, Tenn., while another brother, Mr. James Laws Purnell, was to leave for his home in Kentucky July 1.

Mr. Purnell writes: "We do all our cooking with electricity now for charcoal is out of sight, costing up to $50 a cargo (sack), and we could not get dinner with $2 worth. Eggs sold as high as $10 per egg last week, lard $30 pesos (dollars) a kilo (2 1 5 lbs), a five cent loaf of bread sells for a ten pesos (30) bill.

The rains are on and it has been raining fine for a week. The family are all well, only every day we have our new boregos (war news) to discuss and worry over.

A MARVEL OF THE SEA.

The arrival in this port of the Deutschland, the greatest undersea boat ever built, may mark a new era in the history of the world's marine history. Germany has done what no other nation ever attempted or even thought of attempting. This great vessel has without mishap made an ocean voyage of over 4,000 miles, making nearly half that journey under sea. She has brought a cargo of over a thousand tons of inestimable value, largely consisting of dyes, of which the cloth manufacturing interests of this country have been very short since the war began and which they will be glad to purchase at almost any price.

When the papers, on May 25, made the first announcement that the submarine was coming to this port many looked upon the story as pure fiction and the undersea boat as a myth. They could not believe that such a voyage could be made or that Germany would take the risk of sending such a boat across the great pond. But Germany has done this, done it well, done it in spite of the British blockade, in spite of British warships that have been hunting for the boat ever since she left port. They even watched for her off the Capes, but she was able to submerge and elude them.

Germany has the laugh on Great Britain for sure. True, the arrival of the Deutschland will not check the Allied drive nor hold back the Russians in forward march. It will be no help to the German armies, will not delay their final defeat, which is sure to come. But it does prove, as has so often been proved before, that Germany can do big things and do them well.

The record of the Deutschland's trip across the Atlantic is as follows:

Sighted off Cape May July 9, at 1.20 A M

Left Kiel June 10.

Reached destination, Baltimore, early Sunday morning.

Traveled 4,100 miles, 1800 of them under water—an unparalled feat.

Crew of 29 men, all of the German, merchant fleet, and not from the navy.

Cargo, 1,000 tons of dyestuffs.

If found to be unarmed, she will be treated by the United States government as an ordinary merchant vessel.

She is in excellent condition.

She ran through the North Sea submerged the entire distance.

She belongs to the Ocean Transportation Company, the new submarine line.
