IF you are a business man, if you are a professional man, if you are employed at a daily wage, make up your mind to deposit weekly a certain sum of money in the bank. You'll be surprised how the sum will grow. Cash in bank gingers up the man who has it there. He has more confidence in himself. The business man is ready for a dull season. He is ready for an opportunity.

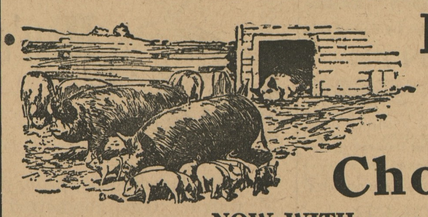

So is the professional man. The man who is working for a daily wage and who hasn't any money in bank frequently is fearful of a loss of his situation. He does not work as well or with the confidence in himself as does the man with something laid aside for a rainy day.

BUILD UP YOUR BANK ACCOUNT.

Fight Off Cholera

—NOW WITH—

Cal-Sino Hog Restorative

THE PREVENTIVE treatment of Hog Cholera with **Cal-Sino Hog Restorative Powder** is easier, safer and more satisfactory than trying to cure the disease itself *after* it attacks your hogs for all too often sudden violent attacks occur which *leave no time* for treatment and so always cause speedy death.

A warm spell of weather is apt to bring an outbreak of Cholera *at any time.* To insure against loss and *to get the most weight* it pays to give a regular course of **Cal-Sino.** It costs only about 10c to 20c per hog per month, depending upon size, to fortify against disease and to make them fleshier, for **Cal-Sino** helps to get *all* the real body-building flesh-making material out of the food—and that's what counts.

If you once try it, you'll *use it always.* Ask your neighbors and the dealers. Don't put it off—delay may cause you loss.

MR. WILBUR S. JENNINGS, Brownsville, Md., writes:—"We lost 22 out of 26 hogs before we started to use **Cal-Sino Hog Restorative,** and we have the 4 yet. I am quite sure we would have lost them all if we had not fed Cal-Sino; so it just saved us $60 to $70, and it would have saved at least $260.00 for us if we could have had it in time."

Help The Service

You can help the telephone service by answering your telephone promptly. Any incoming message may be of the utmost importance to you.

Be slow to blame the operator for "Don't answer" or "Busy" reports. In the first case, the operator cannot force the party to answer; in the second, she must wait until the called party, or some one on his line, gets through talking.

When you telephone, smile.

COMPULSORY SCHOOL LAW NOW IN FORCE

Provisions of The Law Affect Children Between 7 And 16.

ATTENDANCE OFFICER WILL ENFORCE PROVISIONS

The schools of Kent county opened Monday. Miss Ruby Ahern, of Millington, has been appointed attendance officer. She is an experienced teacher, capable and of scholastic training, a lady of good judgment and common sense and we bespeak for her a successful term. This is a new position created by the last Legislature. Her duties are to see that every child of school age attends school.

The attention of parents is called to the requirements of the school laws now in force regarding the attendance of children. Any child who is six years of age may attend the public schools. In order to avoid the formation of new classes after the regular work is well under way, children who will be six years of age on or before November 1st, must be enrolled at the beginning of the year, unless they prefer to wait until the secoud half year of school, which begins about the middle of January.

The Compulsory School Attendance Law affects children between the ages of seven (7) and sixteen (16). Following are the provisions of the law in full:

"Every child, residing in any county of the State being seven years of age, and under thirteen years of age, shall attend some public school during the entire period of each year that the public schools of the county are in session; unless it can be shown to the county superintendent of schools that such a child is elsewhere receiving regular and thorough instruction during such periods in the studies usually taught in the public schools of the county to children of the same age; provided, that the suporintendent or principal of any school, or persons duly authorized by such superintendent, may excuse cases of necessary and legal absence among such enrolled pupils, and provided, further, that the provisions of this section shall not apply to children whose mental or physical condition is such as to render the instruction above described inexpedient or impracticable. Every person having under his control a child seven years of age and under thirteen years of age, shall cause such child to attend school or receive instruction as required by this section.

"Every child, residing in any county of the State, being thirteen years of age or fourteen years of age, shall attend some public school not less than one hundred days, as nearly consecutive as possible, beginning not later than November first, during the period of each year that the public schools of the county are in session, and such child shall attend some public school the entire period of each year that the public schools of the county are in session, if not regularly and lawfully employed to labor at home or elsewhere, unless it can be shown to the county superintendent of schools that such a child is elsewhere receiving regular and thorough instruction for such period in the studies usually taught in the public schools of the county to children of these ages; provided, that the provisions of this section shall not apply to childen whose mental and physical condition is such as to render the instruction above described inexpedient or impracticable. Every person having under his control a child thirteen years of age or fourteen years of age, shall cause such child to attend school or receive instruction as required by this section.

"Every child residing in any county of the State, being fifteen years of age or sixteen years of age, who has not completed the work of the public elementary school, shall attend some public school not less than one hundred days, as nearly consecutive as possible, beginning not later than November first, during the period of each year the public schools of the county are in session; and such child shall attend some public school the entire period of each year the public shools of the country are in session, if not regularly and lawfully employed to labor at home or eleswhere, unless it can be shown to the county superintendent of schools that such child is elsewhere receiving regular and thorough instruction for said period in the studies usually taught in the public schools of the county to the children of these ages; provided, that the provisions of this section shall not apply to children whose mental and physicial condition is such as to render the instructions above described inexpedient or impracticable. Every person having under his control a child fifteen years of age, or sixteen years of age, shall cause such child to attend school or receive instructions as required by this section.

"Any person who has a child under his control and who fails to comply with any of the provisions of this section, shall be guilty of a misdemeanor and shall be fined not exceeding five dollars for each offense."

It is hoped that parents and guardians having children under thir control will co-operate with the school authorities and send their children to school as provided in the law and thus do their part to avoid friction and unpleasantness in the enforcement of a law which is framed in the interest of the school children of the State.

WORKING FOR WORKING MEN

Part of Editorial in Frederick Post

There is something fine about a man who goes into things in the whole-hearted way that David J. Lewis does. He is not trying for glory by going after the easy things—the work that can be accomplished quickly and easily, and that makes a brave showing before the unthinking citizen when piled up in a formidable mass. His system is to pick out the things that people are most skeptical about—projects that the majority believe impossible of successful completion—and to make them successful.

Such a man comes in for much censure and ridicule, even after his labors have been crowned with success. His motives are subject to question, and his apparent good-will toward the people is construed as sham and affectation.

But there would seem to be something more than sham and affectation about a man whose every great work since he has been in public office has had for its ultimate end the greater comfort and the more ease in living for the man to whom living is a problem.
