KENT COUNTY MUST PAY.

An important decision was given in the Circuit Court for Kent County last Friday night in the trial of the case of John Gale Usilton versus the County Commissioners for work done under the direction of the road engineer. This was a test case in which over $6,000 was involved.

In the last year of Engineer Gibb's term of office he issued orders for work exceeding the 20 per cent levied. Suit was brought on one of these orders and the court decided that the county was liable for this debt. For six years the salary of the engineer was paid out of the road fund, which the law said should be expended in roads and bridges. The court held that inasmuch as the engineer was a State officer his salary should not be paid out of the road fund any more than the State's Attorney should be paid out of the Automobile licenses.

W. W. Beck and S. S. Beck represented the plaintiff, while John D. Urie appeared for the county.
