

PRINCE ALBERT

the national joy smoke

Copyright 1916 by R. J. Reynolds Tobacco Co.

Prince Albert gives smokers such delight, *because*

—its flavor is so different and so delightfully good;
—it can't bite your tongue;
—it can't parch your throat;
—you can smoke it as long and as hard as you like without any comeback but *real* tobacco happiness!

On the reverse side of every Prince Albert package you will read:

"PROCESS PATENTED JULY 30TH, 1907"

That means to you a lot of tobacco enjoyment. Prince Albert has always been sold without coupons or premiums. We prefer to give quality!

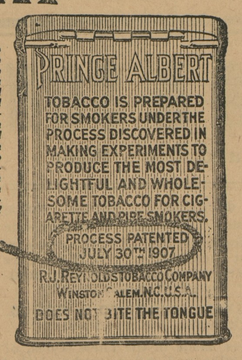

in goodness and in pipe satisfaction is all we or its enthusiastic friends ever claimed for it!

YOU'LL find a cheery howdy-do on tap no matter how much of a stranger you are in the neck of the woods you drop into. For, Prince Albert is right there—at the first place you pass that sells tobacco! The toppy red bag sells for a nickel and the tidy red tin for a dime; then there's the handsome pound and half-pound tin humidors and the pound crystal-glass humidor with sponge-moistener top that keeps the tobacco in such bang-up trim all-the-time!

It answers every smoke desire you ever had! It is so cool and fragrant and appealing to your smokeappetite that you will get chummy with it in a mighty short time!

Will you invest 5c or 10c to prove out our say-so on the national joy smoke?

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

This is the reverse side of the Prince Albert tidy red tin. Read this "Patented Process" message-to-you and realize what it means in making Prince Albert so much to your liking.

Mr. Watson, like thousands of other merchants, is saving moremoney by using a VIM. He writes in part as follows:

"Gentlemen:—I formerly employed a number of horses and wagons but I am now making my deliveries with one VIM Truck. I should say it will easily do the work of two horse and wagon outfits, and costs about the same as one horse and wagon."
THOMAS WATSON, 324 N. 13th Street.

Mr. Watson is covering more territory, making more sales, developing more new business because he has a VIM.
He has a graceful, "classy" car that is advertising his business.
He has a sturdy, durable, economical car that stands hard work.
And besides he is saving real money. **You can do the same.**

More About Hogs Than Babies.

A little countrywoman told the International Dry Farming delegates that they knew more about raising hogs than they did about raising children; that the Government spent $40,000 to study children's diseases and $800,000 to study diseases among hogs. She was Mrs. W. A. Warner, of Claude, Texas, who spoke on the subject "The Farm Woman's Viewpoint."

INFANTILE PARALYSIS IN CAROLINE

There are two, possibly three, cases of infantile paralysis in the First district, Caroline county, and the physicians are anxious about the probability of a spreading of the contagion. The most serious case is that of Mrs. Edgar Walls, wife of a Henderson merchant, who has been sick and confined to her bed for three weeks or more. She cannot use her limbs. A number of physicians have been called to see her, and her condition is still discouraging. At Goldsboro, Billy, the two-and-a-half year-old son of Mr. and Mrs. Robert Jarrell, Jr., has a clear case of the malady, and Miriam, a three-and-a-half-year-old daughter of Mr. and Mrs. Jarrell has shown symptoms of the same trouble. Precautions have been taken in the way of quarantine. There have been a number of cases of infantile paralysis in Caroline in recent years and most of the patients have regained their health.—Denton Journal.

Prompt Answers

Most of what you might think is "slow service" is caused by subscribers not answering promptly.

The operator does her duty when she rings the bell of the person wanted. If that person is slow to answer, the operator is as helpless as the person making the call.

You can help the service by answering your telephone promptly.

KEEPING AHEAD

It was an American business firm who some forty-three years ago showed the world how to perfect the medicinal properties of cod liver oil and make it pleasant to take which immediately popularized cod liver old throughout the whole world.

Not content with this great success, however, Scott & Bowne have continued to evolve methods and machinery to keep Scott's Emulsion finer, purer and richer than the imitations which patterned after their plans, and to-day every precaution that human ingenuity can devise is employed to keep Scott's Emulsion the finest and purest medicinal food in the world.

The refining of raw cod liver oil as practiced with the crude equipments available along the Norwegian coast has never equared with the ideals of Scott & Bowne and they have just completed a spacious refining plant adjoining their laboratories in Bloomingfield, N. J., which is refrigerated to the climate of Norway and equipped with unusual sanitary devices which will forever insure a supreme quality of cod liver oil in every bottle of Scott's Emulsion and place it above and beyond all commercial substitutes which contain the usual suspicious or adulterated oils.
