Tired

"I was weak and run-down," relates Mrs. Eula Burnett, of Dalton, Ga. "I was thin and just felt tired, all the time. I didn't rest well. I wasn't ever hungry. I knew, by this, I needed a tonic, and as there is none better than—

CARDUI The Woman's Tonic

"... I began using Cardui," continues Mrs. Burnett. "After my first bottle, I slept better and ate better. I took four bottles. Now I'm well, feel just fine, eat and sleep, my skin is clear and I have gained and sure feel that Cardui is the best tonic ever made." Thousands of other women have found Cardui just as Mrs. Burnett did. It should help you. At all druggists.

HIGHER PRICE FOR TOMATOES

Losses By Packers And Growers Last Year Lead To One-Fourth Crop.

Tomatoes are the strong point of the canned vegetable market. Kent packers predict higher prices next winter because of the 75 per cent reduction in plants set out last spring.

Between October, 1920, and last May canned tomatoes fluctuated between 85 cents and \$1 a dozen for No. 3's. Since May the wholesale price has climbed steadily and now the quotation is \$1.25 and \$1.30.

Losses last season account for the setting out of only 25 per cent of the 1920 tomato crop, according to canners and growers. Canners' experience of producing at a cost of \$1.35 a dozen last summer, getting less than \$1 all year until May and barely breaking even since, makes them wary of overstocking. Many Kent canneries will not operate at all this summer, and some larger canneries will open only a few units.

The local representative of one large canner says his firm is reducing its output to what it feels sure of selling at a profit. Cans cost \$3 a hundred more than last year, and other costs vary so, he says, that the company is determined to guard against sales at a loss. Quotations on futures are not obtainable.

About 55 per cent of the amount of peas canned last year were put up this June. The corn crop is said to be fairly good, with prospects of near the normal quantity being canned.

Its clean, white-tipped flame gives the correct heat instantly

THIS is the reason why cooking with a New Perfection is so easy and successful. You can regulate the heat accurately to within a few degrees every time you bake a particular kind of pastry or cook a roast.

Instead of the old way of "rushing the fire" and more often than not burning your cakes, a little experience with a New Perfection will show you how easy it is to get successful results uniformly. You can adjust the heat in a second where it takes several minutes with the draft and damper method of a coal range.

Over 3,000,000 housekeepers who use the New Perfection enjoy the relief that affords from coal and wood carrying and all the litter and bother that go with them. Their kitchens are more comfortable to work in, too, especially during warm weather.

Another feature of the New Perfection is its long blue chimney. This drives clean, sootless heat against the cooking utensils with an extremely small loss by radiation. You can always see the flame through the little mica door.

The four-burner size equipped with warming cabinet and New Perfection Oven is the most popular. But you can obtain a five, three, two or one-burner size if you prefer. Aladdin Security Oil gives the best results uniformly. Use it all the time.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste.
