To Our Water Takers.

About five (5) years ago we had in use three (3) water meters. Today, Sept. 1st, we have in use eighty-five (85). By Jan. 1st, 1922, we want to increase the number to one hundred (100). You are invited to call at the Water Board office and get the rates. Ask the superintendent to show you the meter accounts against the different or any particular customer. We believe that any family user can cut these charges down to \$1 per month or \$12 per year, provided the water fixtures are in perfect order, not leaky. The customer pays for installing the meter and the Water Board will furnish the meter free of charge to you, but will retain the ownership and keep same in repair against all cold water use. Call at office 2 to 5 p. m. and talk it over.

A Boy With A Fortune

A boy with a fortune is a boy who has one hundred dollars that he himself has saved. His fortune consists not alone of the money saved—and what boy with a hundred dollars would not feel like a millionaire?—but of a valuable lesson learned.
Not only has he experienced the thrill of possession, but he has caught the thrift habit. He has learned to do without useless things. He no longer squanders his money. He has better judgment of values. He is doubtless a far better boy.
Has your boy started to save yet? If he has not, there is no better time to teach him to begin than now—at this Bank.
